It is written by junior doctors still close to the transition from theory to practice, overseen by a review panel of senior clinicians to ensure accuracy, and designed to help medical students practise and learn as much as possible about prescribing, in actual clinical scenarios, before they have to do it for real. Each scenario is presented as you would see it in the hospital setting and covers: Initial step-by-step assessment of the patient: how to assess, assessment findings, and immediate management Initial investigations Initial management Reassessment Treatment Handing over the patient 'Prescribe' alerts throughout Written-up drug charts Blank drug charts for copying and practice
