Beyond Priesthood Richard L. Gordon
2017-08-21 The last decade has seen a surge of scholarly interest in these religious professionals

and a good number of high quality publications. Our volume, however, with its unique intercultural character and its explicit focus on appropriation and contestation of religious

expertise in the Imperial Era is substantially different. Unlike the rather narrow focus of earlier studies of civic priests, the papers presented here examine a wider range of religious professionals, their dynamic interaction with established religious authorities and institutions, and their contributions to religious innovation in the ancient Mediterranean world, from the late Hellenistic period through to Late Antiquity, from the City of Rome to mainland Greece, Asia Minor, Syria and Egypt, from Greek civic practice to ancient Judaism. A further advantage of our volume is the wide range of media of transmission taken into account. Our contributors look at both old and new materials, which derive not only from literary sources but also from papyri, inscriptions, and material culture. Above all, this volume assesses critically convenient terminological usage and offers a unique insight into a rich gamut of ancient Mediterranean religious specialists.

Renaissance Rhetoric Peter Mack 1993-12-15

This book provides examples of the best modern scholarship on rhetoric in the renaissance.

Lawrence Green, Lisa Jardine, Kees Meerhoff, Dilwyn Knox, Brian Vickers, George Hunter, Peter Mack, David Norbrook and Pat Rubin look at the reception of Aristotle's *Rhetoric* in the renaissance; the place of rhetoric in Erasmus's career, Melanchthon's teaching, and sixteenth

century protestant schools; the rhetoric textbook; the use of rhetoric in Raphael, renaissance drama, Elizabethan romance, and seventeenth century political writing. It will become essential reading for advanced studies in English, rhetoric, art history, history, history of education, history of ideas, political theory, and reformation history.

Pietro Bembo Carol Kidwell 2004 Carol Kidwell's lavishly illustrated book is the first full-length biography of Renaissance Cardinal Pietro Bembo. Her extensive use of translations from Bembo's 2,600 letters, including exchanges of love letters with Lucrezia Borgia, provides a picture of personal life in the brilliant, turbulent years of the Italian Renaissance. Bembo, a Venetian patrician and man of letters, had a close association with the printer Aldus. He enjoyed a rich life with illicit love affairs in the courts of Ferrara, Urbino, and finally Rome, where he was appointed Latin secretary to Leo X. Ten years later, ill and bored, Bembo left

Rome for Padua with Morosina, the young sister of a Vatican courtesan. To guarantee a living he took vows of chastity, poverty and obedience in the aristocratic order of St John of Jerusalem, and then started a family. Bembo was active in education in Padua; and his great achievement was to have helped create a common language for Italy through the revival of medieval Tuscany in his poetry and prose. Appointed official historian of Venice, after Morosina's death he became a cardinal. An open mind, coupled with staunch support of the established church during the troubled years of the reformation, made him an asset to the papal curia. At the time of his accidental death in Rome in 1547 he was considered a likely successor to Paul III.

Morlino 2020 "In the intellectual life of a scholar, it is not infrequent for a research question to rattle around in the back of the mind for years. Then all of a sudden comes the realisation that the time is ripe to tackle the topic, and that an attempt has to be made at presenting, discussing and empirically analysed it. I will not go into the reasons why I think that this is now the right moment to address the question on the implementation of the two traditional democratic values, and their transformations over recent years, partly as a consequence of the economic crisis, and its prospective sustainability. Maybe in his Discorsi Machiavelli was only right when he recommends going back to values in times of crisis. There are, of course, other objective and subjective reasons, and the former will emerge directly and indirectly in the first chapter"--.

2010-10-12 When the brig Amaryllis was swallowed in a hurricane, the captain and all the crew were swallowed, too. For thirty years the captain's widow, Geneva Reade, has waited, certain that her husband will send her a message from the bottom of the sea. But someone else is waiting, too, and watching her, a man called Seward. Into this haunted situation comes Jenny, the widow's granddaughter. The three of them, Gran, Jenny, and Seward, are drawn into a kind of deadly game with one another and with the sea, a game that only the sea knows how to win. *The Eyes of the Amaryllis* is a 1977 New York Times Book Review Notable Children's Book of the Year.

Class, State, and Crime Richard Quinney 1977

Laboratories of Art Sven Dupré 2014-04-25

This book explores the interconnections and differentiations between artisanal workshops and alchemical laboratories and between the arts and alchemy from Antiquity to the eighteenth century. In particular, it scrutinizes epistemic exchanges between producers of the arts and alchemists. In the fifteenth and sixteenth centuries the term *laboratorium* uniquely referred to workplaces in which 'chemical' operations were performed: smelting, combustion, distillation, dissolution and precipitation. Artisanal workshops equipped with furnaces and fire in which 'chemical' operations were performed were also known as laboratories. Transmutational alchemy (the transmutation of all base metals into more noble ones, especially gold) was only one aspect of alchemy in the early modern period. The practice of alchemy was also about the chemical production of things--medicines, porcelain, dyes and other products as well as precious metals

and about the knowledge of how to produce them. This book uses examples such as the Uffizi to discuss how Renaissance courts established spaces where artisanal workshops and laboratories were brought together, thus facilitating the circulation of materials, people and knowledge between the worlds of craft (today's decorative arts) and alchemy. Artisans became involved in alchemical pursuits beyond a shared material culture and some crafts relied on chemical expertise offered by scholars trained as alchemists. Above all, texts and books, products and symbols of scholarly culture played an increasingly important role in artisanal workshops. In these workplaces a sort of hybrid figure was at work. With one foot in artisanal and the other in scholarly culture this hybrid practitioner is impossible to categorize in the mutually exclusive categories of scholar and craftsman. By the seventeenth century the expertise of some glassmakers, silver and goldsmiths and producers of porcelain was just

as based in the worlds of alchemical and bookish learning as it was grounded in hands-on work in the laboratory. This book suggests that this shift in workshop culture facilitated the epistemic exchanges between alchemists and producers of the decorative arts.

Letters 1941-1985 Italo Calvino 2014-06-05 The extraordinary letters of Italo Calvino, one of the great writers of the twentieth century, translated into English for the first time by Martin McLaughlin, with an introduction by Michael Wood. Italo Calvino, novelist, literary critic and editor, was also a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal and Pier Paolo Pasolini. This collection of his extraordinary letters, the first in English, gives an illuminating insight into his work and life. They include correspondence with fellow authors, generous encouragement to young writers, responses to critics, thoughts on literary criticism and literature in general, as well as giving glimpses

of Calvino's role in the antifascist Resistance, his disenchantment with Communism and his travels to America and Cuba. Together they reveal the searching intellect, clarity and passionate commitment of a great writer at work. 'This literally marvelous collection of letters shows him to have been gregarious, puckish, funny, combative, and, above all, wonderful company, and opens a new and fascinating perspective on one of the master writers of the twentieth century. Michael Wood and Martin McLaughlin have done Calvino, and us, a great and loving service.' John Banville 'A charming addition to the Planet Calvino - a place cluttered with sphinxes, chimeras, knights, spaceships and viscounts both cloven and whole' Guardian Italo Calvino, one of Italy's finest postwar writers, was born in Cuba in 1923 and grew up in San Remo, Italy. Best known for his experimental masterpieces, *Invisible Cities* and *If on a Winter's Night a Traveller*, he was also a brilliant exponent of allegorical fantasy in works

such as *The Complete Cosmicomics*. He died in Siena in 1985.

Ending Terrorism in Italy Anna Cento Bull 2013-06-07 *Ending Terrorism in Italy* analyses processes of disengagement from terrorism, as well as the connected issues of reconciliation, truth and justice. It examines in a critical and original way how terrorism came to an end in Italy (Part I), and the legacy it has left behind (Part II). The book interrogates a wide array of published memoirs and a considerable number of new face-to-face interviews with both former terrorists and first and second generation victims In the last two decades, and especially in recent years, former extreme-right terrorists in Italy have started to talk about their past involvement in terrorist violence, including, for the first time, acts of violence which have for decades been considered taboo, that is to say, bomb attacks against innocent civilians. These narratives add to the perspectives offered by members of left-wing terrorist groups, such as

the Red Brigades and Prima Linea. Surprisingly, these narratives have not been systematically examined, yet they form a unique and extremely rich source of first-hand testimony, providing invaluable insights into processes of youth radicalization and de-radicalization, the social re-integration of ex-terrorists, as well as personal and collective healing. Even less attention has been paid to the victims' narratives or stories. Indeed, the views and activities of the victims and their associations have been seriously neglected in the scholarly literature on terrorism, not just in Italy, but elsewhere in Europe. The book therefore examines the perspectives of the victims and relatives of victims of terrorism, who over the years have formed dedicated associations and campaigned relentlessly to obtain justice through the courts, with little or no support from the state and, especially in the case of the bombing massacres, with increasing awareness that the state played a role in thwarting the course of justice. Ending

Terrorism in Italy will be of interest to historians, social scientists and policy makers as well as students of political violence and post-conflict resolution. .

The Dyskolos Menander (of Athens.) 1984 With the discovery and translation of the *Dyskolos* ("The Grouch"), Menander comes alive with subtle philosophy and vision. His world of troubled lovers, scheming servants, and foolish old men, with its witty dialogue and quick turnabouts in plot, offers friendly advice on life as we still experience it today and insightful commentary on the shortcomings of humanity. In this play about an outrageous misanthrope, the mischief he causes, and the comeuppance he receives, we encounter a comic spirit that Molière would have bowed to in homage.

World Editors Gustavo Guerrero 2020-12-16 The existence of World Literature depends on specific processes, institutions, and actors involved in the global circulation of literary works. The contributions of this volume aim to

pay attention to these multiple material dimensions of Latin American 20th and 21st century literatures. From perspectives informed by materialism, sociology, book studies, and digital humanities, the articles of this volume analyze the role of publishing houses, politics of translation, mediators and gatekeepers, allowing insights into the processes that enable books to cross borders and to be transformed into globally circulating commodities. The book focusses both on material (re)sources of literary archives, key actors in literary and cultural markets, prizes and book fairs, as well as on recent dimension of the digital age. Statements of some of the leading representatives of the global publishing world complement these analyses of the operations of selection and aggregation of value to literary texts.

The Structures of Practical Knowledge

Matteo Valleriani 2017-02-20 The Structures of Practical Knowledge investigates the nature of practical knowledge – why, how, when and by

whom it is codified, and once codified, how this knowledge is structured. The inquiry unfolds in a series of fifteen case studies, which range in focus from early modern Italy to eighteenth century China. At the heart of each study is a shared definition of practical knowledge, that is, knowledge needed to obtain a certain outcome, whether that be an artistic or mechanical artifact, a healing practice, or a mathematical result. While the content of practical knowledge is widely variable, this study shows that all practical knowledge is formally equivalent in following a defined workflow, as reflected in a construction procedure, a recipe, or an algorithm. As explored in the volume’s fifteen contributions, there are three levels at which structures of practical knowledge may be understood and examined. At the most immediate level, there are the individual workflows that encompasses practical knowledge itself. Probing further, it is possible to examine the structure of practical knowledge

as it is externalized and codified in texts, drawings, and artifacts such as models. Finally, practical knowledge is also related to social structures, which fundamentally determine its dissemination and evolution into new knowledge structures. The social structures of professionals and institutions represent the critical means by which practical knowledge takes form. These actors are the agents of codification, and by means of selection, appropriation, investment, and knowledge development, they determine the formation of new structures of practical knowledge. On a more abstract level, the creation of new knowledge structures is understood as constituting the basis for the further development of scientific knowledge. Rich in subject matter and incisive in the theory it lays out, this volume represents an important contribution to the history of science and epistemology. Individually, the fifteen case studies – encompassing the history of architecture, mining, brewing, glass production,

printing, ballistics, mechanics, cartography, cosmology and astronomy – are replete with original research, and offer new insights into the history of science. Taken together, the contributions remodel historical epistemology as a whole, elucidating the underlining knowledge structures that transcend disciplinary boundaries, and that unite practitioners across time and space.

Deliver Us Luigi Meneghello 2011-05-27

Originally published in 1963, and today considered a landmark in twentieth century Italian literature, Luigi Meneghello's *Deliver Us* is the memoir, not of an extraordinary childhood, but of the very ordinary one the author shared with most of his generation, when Italy was a rural country under the twin authorities of Church and Fascism. His boyhood begins in 1922, the year of Mussolini's March on Rome, and ends when Meneghello, 21, goes up into the hills to join the partisans. Called a romanzo—a story, although not a novel, as that term usually suggests—the book is a genre all of its own that mixes personal and collective memory, amateur ethnography, and reflections on language. Meneghello's sharp insights and narrative skill come together in an original meditation on how words, people, places, and things shape thought itself. Only loosely chronological, *Deliver Us* proceeds by themes—childhood games, Fascist symbols, religious precepts, and the rites of poverty, of death, of eros, and of love.

Meneghello's ironic musings and profoundly honest recollections make an utterly unsentimental human comedy of that was the whole world to his dawning consciousness.
