Alpha Phonics A Primer For Beginning Readers

Phonics is probably the simplest, most effective, REASONABLY priced phonics instruction programs available. HERE IS WHY IT WORKS SO WELL: IT IS SIMPLE!! (Please also scroll down to see the VIDEO near the bottom left of this page) HERE IS WHY: There are only 44 phonograms (Sounds) the child needs to learn in order to read. Reading, contrary to what you have been told, is easy to teach because all you need to do is teach the student to SOUND OUT the words they want to read. At first, they sound the words out aloud, later they do it in their head silently. That is ALL there is to teaching reading. MOM get this: All 128 Lessons in Alpha-Phonics are covered in ONLY 14 pages of instructions for you. Students begin with short vowels putting together simple words (Like a with m = am or a with s = as) and progress to the more advanced words. With Alpha-Phonics the beginner can be reading simple sentences by lesson three, and that can even be on the first day! Other reading instruction

programs try to do too much. They inject grammar, pictures and other material, needlessly complicating the task. Alpha-Phonics just teaches reading only. Alpha-Phonics has as a BONUS: you teach SPELLING easily as you go (through simple dictation). Alpha-Phonics easily introduces over 3,500 words in its simple 128 lessons. Some students can learn to read in only months or less. Alpha-Phonics also works very well for older students, even grown adults who need remediation. Is there a negative about Alpha-Phonics? Yes. In the past 37 years we have heard only one criticism (Only a few times). It is: Some Moms say they think their child can become bored when taught by Alpha-Phonics. Why? Parents have been convinced that learning has to be fun time. They have been led to believe games, card decks, cartoons/pictures, spin the needle tricks, etc., make it fun. They feel they have to entertain their kids while teaching. But this unnecessarily slows down the

Alpha Phonics A Primer For Beginning Readers

process. With Alpha-Phonics the student can actually be READING simple sentences even day ONE! Students do see lists of words in Alpha-Phonics lessons, but they QUICKLY are actually READING those words; they are accomplishing, instead of being entertained. The Bells and Whistles in other programs slow the process and cost time and money \$\$\$. The huge sense of success in actually reading quickly overcomes any other consideration. We almost forgot the SUPER BONUS: Many ADULTS become BETTER readers while teaching their child! The lessons for the Student are in LARGE TYPE on 8 1/2 X11 pages meaning you can instruct him/her DIRECTLY from the book. Nothing need be copied on separate paper. Makes everything much easier than if it were on 5 X 8 pages. Alpha-Phonics is highly recommended by leading Homeschooling curriculum reviewers such as Mary Pride, Cathy Duffy, Karen Andreola. Amazon also has a set of

practice Readers and a practice Phonics Workbook to accompany Alpha-Phonics. (But they are NOT required, but Moms find them helpful) The Alpha-Phonics and How To Tutor Little Companion READERS (10 books combined into one handy book): \$ 19.95 (ISBN 9780941995344). They are specifically designed to follow along with the Alpha-Phonics book as you teach from it. The other resource is The Alpha-Phonics and How To Tutor Phonics Companion PRACTICE WORKBOOK: \$ 19.95 (ISBN: 9780941995337). Designed to accompany the Alpha-Phonics book as you go through the lessons. ALPHA-PHONICS REALLY DOES WORK.....IT HAS FOR OVER 37 YEARS!!

So You're Thinking About Homeschooling: Second Edition Lisa Whelchel 2005-03-09 Discover the Diversity of Homeschooling Confused and intimidated by the complexities of homeschooling, many parents assume it could never work for them. Now an updated edition of So You're Thinking About Home Schooling by Lisa Whelchel—herself a homeschooling mother of three—introduces to readers fifteen composite portraits of homeschooling families who show how every family can

successfully face the unique challenges of its situation. The story-based approach deals with common questions of time management, teaching weaknesses, and outside responsibilities, as well as children's age variations, social and sports involvement, learning disabilities, and boredom. Seeing a wide variety of homeschooling families in action gives parents the information and confidence they need to make their own decisions about home-based education. Includes a new chapter from Lisa and an all-new resource guide with recommendations from real-life homeschooling families! "I'm Thinking About Homeschooling" You're also probably thinking, But can I really teach my children? Where do I start? What if I need to work outside the home? Must I have twelve children, raise goats, and bake my own bread? And what about socialization? I could tell you the answers to these questions, but I would rather show you. Beginning with my own, I want

to introduce you to fifteen families in fifteen unique situations who have all chosen to homeschool for different reasons, using a variety of learning methods. So... let's rap lightly on the homeschool door and peek inside before we decide if we are ready to move in! Story Behind the Book "My hope is that by the end of the book, and a stroll through the neighborhood, you will feel more confident as you identify a family situation and teaching method that resonates with your personality and philosophy of education. From there, you can simply look to the end of each chapter to find a sample schedule for the homesechool day and list of curriculum suggestions for that particular teaching method."

—Lisa

and challenges. Grab a cup of tea and enjoy!" —Linda Dobson, author of *The First Year of Homeschooling Your Child*

The Victims of "Dick and Jane" and Other Essays

Samuel L. Blumenfeld 2003
With the bankruptcy of modern education and the fallout of years of state controlled public schools, today's students are best indentified as "victims" rather than pupils. In this collection of essays Samuel Blumenfeld discloses the epidemic of humanistic educational theory and provides a clear way out to a truly biblical form of education. Written over a period of 20 years these essays will equip you with a comprehensive Christian view of education along with an easy to understand analysis of the

degradation of public education. Book jacket.

Blumenfeld used by hundreds of thousands since introduced in the late 1970's. Alpha-Phonics is probably the

Blumenfeld, who passed away on May 30, 2015. HERE IS WHY IT HAS ALWAYS WORKED SO WELL: IT IS SIMPLE!! There are only 44 phonograms (Sounds) the child needs to learn. Reading, contrary to what you have been told, is easy to teach someone because all you have to do is teach the student to SOUND OUT the words they need to read. At first they sound the words out aloud, later they do it in their head silently. That is

ALL there is to teaching reading. MOM get this: All 128 Lessons in Alpha-Phonics are covered in ONLY 14 pages of instructions for you. (See SAMPLE PAGES above) Students begin with short vowels putting together simple words (Like a with m = am or a with s = as) and progress to the more advanced words. With Alpha-Phonics the beginner can be reading simple sentences by lesson three, and that can even be on the first day! Other programs try to do too much. They inject grammar, pictures and other material, needlessly complicating the task. Alpha-Phonics just teaches reading only. Alpha-Phonics has as a BONUS: you teach SPELLING easily as you go (through simple dictation). Alpha-Phonics easily introduces over 3,500 words in its simple 128 lessons. Some can learn to read in only months. Alpha-Phonics works very well for older students, even grown adults who need remediation. NOW you get the benefit of Full money-back guarantee and 24/7 Helpline. Is there a

negative about Alpha-Phonics? Yes. In the past 30 years we have heard only one criticism (Only a few times). It is: Some Moms say they think their child can become bored when taught by Alpha-Phonics. Why? Parents have been convinced that learning has to be fun. They believe games, card decks, cartoons/pictures, spin the needle tricks, etc. make it fun. They feel they have to entertain kids while teaching. But this slows down the process. With Alpha-Phonics the student can actually be READING simple sentences even day ONE! Students do see lists of words in Alpha-Phonics lessons, but they quickly are READING those words; they are accomplishing, not being entertained. The Bells and Whistles in other programs slow the process and cost time and money \$\$\$. The Student's huge sense of success in actually reading quickly overcomes any short-lived boredom. We almost forgot the SUPER BONUS: Many ADULTS become BETTER readers while teaching their child! Amazon

also has available a set of practice Readers and a practice Phonics Workbook to accompany Alpha-Phonics. The Alpha-Phonics READERS (Set of 10 little books children love): \$ 24.95 (ISBN 9780941995122). The Alpha-Phonics PHONICS WORKBOOK: \$ 19.95 (ISBN: 9780941995139). They are optional but parents find them helpful to further the progress of their children. SIMPLE, EFFECTIVE, and INEXPENSIVE: Alpha-Phonics. [Reading with Phonics](#) Julie Hay 1967
