**How to Not Die Alone** Logan Ury 2021-02-02 A “must-read” (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, “Why has everyone found love except me?” You’re not the only one. Great relationships don’t just appear in our lives—they’re the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn’t lead to results. You have to actually change your behavior. Ury shows you how. This “simple-to-use guide” (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You’ll learn: -What’s holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn’t) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why “the spark” is a myth (but

you’ll find love anyway) This “data-driven” (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. *How to Not Die Alone* will help you find, build, and keep the relationship of your dreams.

*Nothing Personal* Nancy Jo Sales 2021-05-18 A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times–bestselling author Nancy Jo Sales At forty-nine, famed *Vanity Fair* writer Nancy Jo Sales was nursing a broken heart and wondering, “How did I wind up alone?” On

the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. *Nothing Personal* is Sales's memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, *Nothing Personal* investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users' deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley's tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.

Shakespeare's History Plays: Richard II to Henry V, the Making of a King C W R D Moseley 2010 Part I provides some contexts for what is inevitably our reading of the history plays, so that perhaps we may guess at the impact they may have had on their contemporaries. The author suggests, by implication, a way of approaching Elizabethan drama that may be generally useful. Part II is a consideration of what the author thinks are some major issues in the Ricardian plays.

How to Be Between Bastian Fox Phelan 2022-05-01 Young women's bodies are relentlessly scrutinised and judged, so for most, the appearance of facial hair is a traumatic experience - unnatural, unfeminine, unwanted. But what happens when a female-assigned person decides to embrace their facial hair? In *How to Be Between*, Bastian Fox Phelan explores how something as seemingly trivial as facial hair can act as a catalyst for a never-ending series of questions about the self. What happens when we accept our bodies as they are? What freedoms are gained by deciding to pursue an authentic sense of self, and what are the costs? As Bastian navigates adolescence and young adulthood, they meet many people who ask, 'Who, or what, are you?' *How to Be Between* is a memoir that takes the reader on a tour of Australian counterculture at the beginning of the 21st century, through queer spaces, art festivals, DIY punk shows, protests, zine distros and the edges of academia...Phelan's memoir is a celebration of these things and the people who make them, and a celebration of being between in general. It's a smart and moving book that I wished wouldn't end, for readers who enjoy emotional stories from the edges of Australia, such as Omar Sakr's poetry collection *The Lost Arabs*, Ellen van Neerven's *Heat and Light* or Alice Chipkin and Jessica Tavassoli's *Eyes Too Dry*.' — David Little, Books+Publishing

**Designing for Kids** Krystina Castella 2018-11-08 Designers, especially design students, rarely have access to children or their worlds when creating products, images, experiences and environments for them.

Research and interviews with designers, social scientists and industry experts are included, highlighting theories and terms used in the fields of design, developmental psychology, sociology, cultural anthropology and education. This textbook includes more than 150 color images, helpful discussion questions and clearly formatted chapters, making it relevant to a wide range of readers. It is a useful tool for students in industrial design, interaction design, environmental design and graphic design with children as the main audience for their creations.

single? On a brisk October morning in New York, Julie Jenson, a single thirty-eight-year-old book publicist, is on her way to work when she gets a hysterical phone call from her friend Georgia. Reeling from her husband's announcement that he is leaving her for a samba teacher, Georgia convinces a reluctant Julie to organize a fun girls' night out with all their single friends to remind her why it is so much fun not to be tied down. But the night, which starts with steaks and martinis and ends with a trip to the hospital, becomes a wake-up call for Julie. Because none of her friends seems to be having much fun right now: Alice, a former legal aid attorney, has recently quit her job to start dating for a living; Serena is so busy becoming a fully realized person that she can't find time to look for a mate; and Ruby, a curvy and compassionate woman, has been mourning the death of her cat for months. So, fed up with the dysfunction and disappointments of being single in Manhattan, Julie quits her job and sets off to find out how women around the world are dealing with this dreaded phenomenon. From Paris to Rio to Sydney, Bali, Beijing, Mumbai, and Reykjavik, Julie falls in love, gets her heart broken, sees the world, and learns more than she ever dreamed possible. *Electronic Performance Support* Paul van Schaik 2016-04-29 Despite ubiquitous powerful technologies such as networked computers, global positioning systems, and cell phones; human failures in decision-making and performance continue to have disastrous consequences. *Electronic Performance Support: Using Digital Technology to Enhance Human Ability*, reminds everyone involved in education, training, human performance engineering, and related fields of the enormous importance of this area. Ironically, the more complex technology becomes, the more

performance support may be needed, and that's why the extraordinary expertise shared in this book is especially valuable. The authors emphasize the psychological aspects of performance support, the fundamental limitations of human memory, perception, cognition, conation, and psychomotor skills and how they can be reduced through electronic performance support, as one of the most important pursuits of this century. Readers will find the material presented extremely useful because of its generic basis - which underlines much of the contemporary use of electronic technology for supporting people who are engaged in problem-solving activities. At the same time, the book gives examples of the application of electronic performance support in a number of specific domains. Possible future developments for electronic performance support are also discussed. The technological challenges we face today, both globally and locally, are more urgent than most people seem willing to acknowledge, and there is no time to waste putting the ideas expressed in this book into action.

**How To Be Single And Happy** Phoebe Belinda Reynolds 2021-10-17 A

lot of women think their happiness is tied to being in a relationship. I was one of those women and felt like a total failure every time a relationship ended and I was single ... again! Women who are not in a relationship or who do not want to get married are often seen as unhappy and as unsuccessful. These many expectations place a heavy burden on them. Whether you are single or not, this book will help you identify the biggest obstacles that cause singles the most pain, and help you find balance and happiness. A single woman can travel alone, she can go wild and invest in the relationships she has with herself, family, and friends. If you are single and unhappy, then this book is for you. This book will show you that it is fun to be single, and it can lead to more trust and a better understanding of what you want in a relationship. This book also helps you find out what you want and need from a partner. But more importantly, it clearly shows what it takes to build a whole life now, even if you choose not to be in a relationship. Because in the end, you are the only person who can make you happy.

**How to Be Single** Kent Lamarc 2016-08-29 Everything seems cool when you have a hot girlfriend next to you. Men look at you with jealousy and water in their mouth, wondering what you have that they don't. But it's not cool when, inside walls, she's a bitch dragging you down and destroying you completely, both mentally and physically, while demanding children and marriage as if you were just a sperm machine. And it is even worse when you dump her and realize that your friends live in a worse situation and have absolutely no idea about how to be single or even deal with their crazy girlfriend when they have one. And well, this is why I wrote this book, for you to wake up and stop being a dork with false pride expecting the right woman to fall from the sky.
