**Dark Continent** Mark Mazower 2009-05-20 "A useful, important book that reminds us, at the right time, how hard [European unity] has been, and how much care must be taken to avoid the terrible old temptations." --Los Angeles Times

Dark Continent provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of

self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next. Unflinching, intelligent, Dark Continent provides a provocative vision of Europe's past, present, and future-and confirms Mark Mazower as a historian of valuable gifts.

Sedulo curavi humanas actiones non ridere,  
non lugere, neque detestari, sed intelligere.  
SPINOZA This monograph is an attempt to

present some information on the fabric and patterns of an ethnic minority group whose destiny was totally deflected by Hitler and his war. The people in question are the Danube Swabians, German populations who were so called because of their habitat in the middle Danube region of east-central and south-eastern Europe. Research for this study was done in 1964 in Hungary, Yugoslavia, Austria and the Federal Republic of Germany, in which countries the author contacted persons of competence and made use of archives and other sources. He also attended the annual convention of the Danube Swabians in July, 1964 in VIm, Germany. In fact, he himself had a small part in the events which he attempts to analyze here. From 1934 until 1944 he served in the Hungarian Ministry of Education in Budapest and headed for some years the department for the schooling of national minorities and also the department in charge of Hungary's cultural interchange. He resigned from the former post in 1939, and was

ousted from the second when German troops occupied Hungary in March, 1944. His personal recollections relating to the events during and after his tenure (he left Hungary for England in June, 1946) have been used to some extent in this study, especially in Chapter X.

**Imagining the Balkans** Maria Todorova  
2009-04-15 "If the Balkans hadn't existed, they would have been invented" was the verdict of Count Hermann Keyserling in his famous 1928 publication, *Europe*. Over ten years ago, Maria

Todorova traced the relationship between the reality and the invention. Based on a rich selection of travelogues, diplomatic accounts, academic surveys, journalism, and belles-lettres in many languages, *Imagining the Balkans* explored the ontology of the Balkans from the sixteenth century to the present day, uncovering the ways in which an insidious intellectual tradition was constructed, became mythologized, and is still being transmitted as discourse. Maria Todorova, who was raised in the Balkans, is in a unique position to bring both scholarship and sympathy to her subject, and in a new afterword she reflects on recent developments in the study of the Balkans and political developments on the ground since the publication of *Imagining the Balkans*. The afterword explores the controversy over Todorova's coining of the term Balkanism. With this work, Todorova offers a timely, updated, accessible study of how an innocent geographic appellation was transformed into one of the most powerful and widespread pejorative

*A History of Muslims, Christians, and Jews in the Middle East* Heather J. Sharkey 2017-04-03

Across centuries, the Islamic Middle East hosted large populations of Christians and Jews in addition to Muslims. Today, this diversity is mostly absent. In this book, Heather J. Sharkey examines the history that Muslims, Christians, and Jews once shared against the shifting backdrop of state policies. Focusing on the Ottoman Middle East before World War I, Sharkey offers a vivid and lively analysis of everyday social contacts, dress, music, food, bathing, and more, as they brought people together or pushed them apart. Historically, Islamic traditions of statecraft and law, which the Ottoman Empire maintained and adapted, treated Christians and Jews as protected subordinates to Muslims while prescribing limits to social mixing. Sharkey shows how, amid the pivotal changes of the modern era, efforts to

simultaneously preserve and dismantle these hierarchies heightened tensions along religious lines and set the stage for the twentieth-century Middle East.
