How to College Andrea Malkin Brenner 2019-04-23 The first practical guide of its kind that helps students transition smoothly from high school to college The transition from high school—and home—to college can be stressful. Students and parents often arrive on campus unprepared for what college is really like. Academic standards and expectations are different from high school; families aren't present to serve as "scaffolding" for students; and first-years have to do what they call

"adulting." Nothing in the college admissions process prepares students for these new realities. As a result, first-year college students report higher stress, more mental health issues, and lower completion rates than in the past. In fact, up to one third of first-year college students will not return for their second year—and colleges are reporting an increase in underprepared first-year students. How to College is here to help. Professors Andrea Malkin Brenner and Lara Schwartz guide first-year students and their families through the transition process, during the summer after high school graduation and throughout the school year, preparing students to succeed and thrive as they transition and adapt to college. The book draws on the authors' experience teaching, writing curricula, and designing programs for thousands of first-year college students over decades.

**Choosing College** Michael B. Horn 2019-08-23 Cut through the noise and make better college and career choices This book is about addressing the college-choosing problem. The rankings, metrics, analytics, college visits, and advice that we use today to help us make these decisions are out of step with the progress individual students are trying to make. They don't give students and families the information and context they need to make such a high-stakes decision about whether and where to get an education. Choosing College strips away the noise to help you understand why you're going to school. What's driving you? What are you trying to accomplish? Once you know why, the book will help you make better choices. The research in this book illustrates that choosing a school is complicated. By constructing more than 200 mini-documentaries of how students chose different postsecondary educational experiences, the authors explore the motivations for how and why people make the decisions that they do at a much deeper, causal level. By the end, you'll know why you're going and what you're really chasing. The book: Identifies the five different Jobs for which students hire postsecondary education Allows you to see your true options for what's next Offers guidance for how to successfully choose your pathway Illuminates how colleges and entrepreneurs can build better experiences for each Job The authors help readers understand not what job students want out of college, but what "Job" students are hiring college to do for them.

**So Good They Can't Ignore You** Cal Newport 2012-09-18 In an unorthodox approach, Georgetown University professor Cal Newport debunks the long-held belief that "follow your passion" is good advice, and sets out on a quest to discover the reality of how people end up loving their careers. Not only are pre-existing passions rare and have little to do with how most people end up loving their work, but a focus on passion over skill can be dangerous, leading to anxiety and chronic job hopping. Spending time with organic farmers, venture capitalists, screenwriters, freelance computer programmers, and others who admitted to deriving great satisfaction from their work, Newport uncovers the strategies they used and the pitfalls they avoided in developing their compelling careers. Cal reveals that matching your job to a pre-existing passion does not matter. Passion comes after you put in the hard work to become excellent at something valuable, not before. In other words, what you do for a living is much less important than how you do it. With a title taken from the comedian Steve Martin, who once said his advice for aspiring entertainers was to "be so good they can't ignore you," Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

Now fully revised and updated, *Looking Beyond the Ivy League* offers a step-by-step guide to selecting the right institution, a checklist of specific questions to ask when visiting a college, the secrets to creating good applications and good applicants, and much more. **Who Gets In and Why** Jeffrey Selingo 2020-09-15 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a "good college." Hint: it's not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that "who gets in" is frequently more about the college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about "getting in" and what higher education has become, *Who Gets In and Why* not only provides an unusually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

**We Beat the Street** Sampson Davis 2006-04-20 Growing up on the rough streets of Newark, New Jersey, Rameck, George, and Sampson could easily have followed their childhood friends into drug dealing,

gangs, and prison. But when a presentation at their school made the three boys aware of the opportunities available to them in the medical and dental professions, they made a pact among themselves that they would become doctors. It took a lot of determination—and a lot of support from one another—but despite all the hardships along the way, the three succeeded. Retold with the help of an award-winning author, this younger adaptation of the adult hit novel *The Pact* is a hard-hitting, powerful, and inspirational book that will speak to young readers everywhere.

**Poor Things** Alasdair Gray 2001 One of Alasdair Gray's most brilliant creations, *Poor Things* is a postmodern revision of *Frankenstein* that replaces the traditional monster with Bella Baxter—a beautiful young erotomaniac brought back to life with the brain of an infant. Godwin Baxter's scientific ambition to create the perfect companion is realized when he finds the drowned body of Bella, but his dream is thwarted by Dr. Archibald McCandless's jealous love for Baxter's creation. The hilarious tale of love and scandal that ensues would be "the whole story" in the hands of a lesser author (which in fact it is, for this account is actually written by Dr. McCandless). For Gray, though, this is only half the story, after which Bella (a.k.a. Victoria McCandless) has her own say in the matter. Satirizing the classic Victorian novel, *Poor Things* is a hilarious political allegory and a thought-provoking duel between the desires of men and the independence of women, from one of Scotland's most accomplished authors.
