[Indiana Notary Public Guide](#) Indiana Secretary of State 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

**Steamboat Disasters of the Lower Missouri River** Vicki Berger Erwin 2020-02-24 During the nineteenth century, more than three hundred boats met their end in the steamboat graveyard that was the Lower Missouri River, from Omaha to its mouth. Although derided as little more than an "orderly pile of kindling," steamboats were, in fact, technological marvels superbly adapted to the river's conditions. Their light superstructure and long, wide, flat hulls powered by high-pressure engines drew so little water that they could cruise on "a heavy dew" even when fully loaded. But these same characteristics made them susceptible to fires, explosions and snags--tree trunks ripped from the banks, hiding under the water's surface. Authors Vicki and James Erwin detail the perils

that steamboats, their passengers and crews faced on every voyage.
