Your Teenager Is Not Crazy Jerusha Clark 2016-03-29 As God allows us to understand the mystery and marvel of brain science, we have the exciting opportunity to reexamine our assumptions about human behavior. Perhaps nowhere does this impact our lives more profoundly than when we think about raising children--especially teenagers. Where parents often see a sweet boy or girl who has morphed into an incomprehensible bundle of hormones and angst, what we really ought to be seeing is an amazing young adult whose brain is under heavy construction. And changing the way we see our teens will revolutionize our relationships with them. Organized by what we hear teens say--things like I'm bored, You just don't understand, Why are you freaking out?, I hate my life!, or Hold on . . . I just have to send this--this book helps parents develop compassion for their teens and discernment in parenting them as their brains are progressively remodeled. Rather than seeing the teen years as a time to simply hold on for dear life, Dr. Jeramy and Jerusha Clark show that they can be an amazing season of cultivating creativity, self-awareness, and passion for the things that really matter.

The Grown-Up's Guide to Teenage Humans Josh Shipp 2017-09-19 Nautilus Gold Award Winner: Parenting & Family A practical guide to understanding teens from bestselling author and global youth advocate Josh Shipp. In 2015, Harvard researchers found that every child who does well in the face of adversity has had at least one stable and committed relationship with a supportive adult. But Josh Shipp didn't need Harvard to know that. Once an at-risk foster kid, he was headed straight for trouble until he met the man who changed his life: Rodney, the foster parent who refused to quit on Shipp and got him to believe in himself. Now, in *The Grown-Up's Guide to Teenage Humans*, Shipp shows all of us how to be that caring adult in a teenager's life. Stressing the need for compassion, trust, and encouragement, he breaks down the phases of a teenage human from sixth to twelfth grade, examining the changes, goals, and mentality of teenagers at each stage. Shipp offers revelatory stories that take us inside the teen brain, and shares wisdom

from top professionals and the most expert grown-ups. He also includes practice scripts that address tough issues, including: FORGIVENESS: What do I do when a teen has been really hurt by someone and it's not their fault? COMMUNICATION: How do I get a teen to talk to me? They just grunt. TRUST: My teen blew it. My trust is gone. Where do we go from here? BULLYING: Help! A teen (or their friend) is being harassed. DIFFICULT AND AWKWARD CONVERSATIONS: Drugs. Death. Sex. Oh my. Written in Shipp's playfully authoritative, no-nonsense voice, *The Grown-Up's Guide to Teenage Humans* tells his story and unpacks practical strategies that can make a difference. Ultimately, it's not about shortcuts or magic words—as Shipp reminds us, it's about investing in kids and giving them the love, time, and support they need to thrive. And that means every kid is one caring adult away from being a success story.
