**Women and the War Story** Miriam Cooke 1996 "An extremely important book. The author, a major figure in 20th century international intellectual debates, dares to enter the discourses of war and politics, nationalism and gender, from a specifically internationalist feminist position."—Jane Marcus, author of *Art and Anger: Reading like a Woman* "To the canonical list of Crane, Sassoon, Remarque, and Malraux, we now must add Khalifa, Talib, and Nasrallah. These and other Arab women writers, Miriam Cooke reveals, have used their literary crafts to upset and destabilize the oddly comfortable codified 'War Story.' Cooke is a wonderful guide into their radically alternative visions of war and of the nation in whose name war is waged."—Cynthia Enloe

*Remembering the Samsui Women* Kelvin E.Y. Low 2014-03-15

*Remembering the Samsui Women* tells the story of women from the Samsui area of Guangdong, China, who migrated to Singapore during a period of economic and natural calamity, leaving their families behind. In their new country, many found work in the construction industry, while others worked in households or factories where they were called hong tou jin, translated literally as "red-head-scarf," after the headgear that protected them from the sun. Contributing to current debates in the fields of social memory and migration studies, this is the first book to examine how the Samsui women remember their own migratory experiences and how they, in turn, are remembered as pioneering figures in both Singapore and China.

No broad claim for originality is made except in the arrangement of all available material; the bibliography makes acknowledgment to all texts so utilized. Besides bringing helpful reminders to new officers regarding the elements of modern warfare, much of the material will be found of radical importance, as it is practically new and never before condensed." -Introduction

**World War Bloody Timor** Peter O'Hanlon 2022-03-30 *World War Bloody Timor* gives a revealing insight into the extraordinary life of the everyday digger and service in a conflict that was far from ordinary. My name is Peter O'Hanlon, but everyone in the military, from the lowest digger to the highest officer, has always called me 'Irish'. You won't see me, or the service men and women like me, featured in the latest blockbuster, but our service lives include drama, laughs and accounts of deep turmoil that are worth telling. I was a member of the Australian Army for 11 years and during my deployment as part of the INTERFET force, serviced three very impacting tours of East Timor. What was it like, as a 19 year to land at the Dilli Airport in Australia's largest deployment since Vietnam? What are the little-known battles and obstacles that cause unseen scars through a deployment? What are the impacts on re-integrating into the civilian community? This is my story, an ordinary soldier; the juicy yarns, the laughs, the battles, the devastating lows, the soaring highs, the blood, sweat and tears we give in service every day. It will make you laugh and may make you cry. It's the cold hard truth about the impact of a different type of war fought by many who deployed to Timor.

**The Russian Military Resurgence** René De La Pedraja 2018-11-27 The transition from the Soviet to the post-1991 Russian military is a fascinating story of decline and reinvention. The Soviet army suffered a slow demise, dissolving in 2000 and only gradually reforming based on radically different principles. The First Chechnya War (1994-1996) was the lowest point for the Soviet military but the Second Chechnya War (1999-2004) saw the initial stirrings of the new Russian army. The Five Day War with Georgia in August 2008 was its first major success and marked Russia's return to world power status. Lively accounts and maps describe the actions of these wars, along with the Crimea operation of 2014, the separatist struggles in eastern Ukraine and the ongoing Russian intervention in Syria.

**The Cultural Defense** Alison Dundes Renteln 2005 Publisher's description: In a trial in California, Navajo defendants argue that using the hallucinogen peyote to achieve spiritual exaltation is protected by the Constitution's free exercise of religion clause, trumping the states' right to regulate them. An Ibo man from Nigeria sues Pan American World Airways for transporting his mother's corpse in a cloth sack. Her arrival for the funeral face down in a burlap bag signifies death by suicide according to the customs of her Ibo kin, and brings great shame to the son. In Los Angeles, two Cambodian men are prosecuted for attempting to eat a four month-old puppy. The immigrants' lawyers argue that the men were following their own "national customs" and do not realize their conduct is offensive to "American sensibilities." What is the just decision in each case? When cultural practices come into conflict with the law is it legitimate to take culture into account? Is there room in modern legal systems for a cultural defense? In this remarkable book, Alison Dundes Renteln amasses hundreds of cases from the U.S. and around the world in which cultural issues take center stage—from the mundane to the bizarre, from drugs to death. Though cultural practices vary dramatically, Renteln demonstrates that there are discernible patterns to the cultural arguments used in the courtroom. The regularities she uncovers offer judges a starting point for creating a body of law that takes culture into account. Renteln contends that a systematic treatment of culture in law is not only possible, but ultimately more equitable. A just pluralistic society requires a legal system that can assess diverse motivations and can recognize the key role that culture plays in influencing human behavior. The inclusion of evidence of cultural background is necessary for the fair hearing of a case.

**Making Do in Damascus** Sally K. Gallagher 2012-10-10 Drawing on fieldwork that spans nearly twenty years, Making Do in Damascus offers a rare portrayal of ordinary family life in Damascus, Syria. It explores how women draw on cultural ideals around gender, religion, and family to negotiate a sense of collective and personal identity. Emphasizing the ability of women to manage family relationships creatively within mostly conservative Sunni Muslim households, Gallagher highlights how personal and material resources shape women's choices and constraints concerning education, choice of marriage partner, employment, childrearing, relationships with kin, and the uses and risks of new information technologies. Gallagher argues that taking a nuanced approach toward analyzing women's identity and authority in society allows us to think beyond dichotomies of Damascene women either as oppressed by class and patriarchy or as completely autonomous agents of their own lives. Tracing ordinary women's experiences and ideals across decades of social and economic change, Making Do in Damascus highlights the salience of collective identity, place, and connection within families, as well as resources and regional politics, in shaping a generation of families in Damascus.

**Unpopular Privacy** Anita Allen 2011-11-01 Can the government stick us with privacy we don't want? It can, it does, and according to Anita L. Allen, it may need to do more of it. Privacy is a foundational good, Allen argues, a necessary tool in the liberty-lover's kit for a successful life. A nation committed to personal freedom must be prepared to mandate privacy protections for its people, whether they eagerly embrace them or not. This unique book draws attention to privacies of seclusion, concealment, confidentiality and data-protection undervalued by their intended beneficiaries and targets--and outlines the best reasons for imposing them. Allen looks at laws designed to keep website operators from collecting personal information, laws that force strippers to wear thongs, and the myriad employee and professional confidentiality rules--including insider trading laws--that require strict silence about matters whose disclosure could earn us small fortunes. She shows that such laws recognize the extraordinary importance of dignity, trust and reputation, helping to preserve social, economic and political options throughout a lifetime.

**Secret War** Billy G. Webb 2010-09-13 If war really is an extension of politics by other means, as Carl von Clausewitz declared back in 1827, then few wars have served as better examples than the Secret War in Laos from 1961-1975. A clandestine conflict fought in parallel with the Vietnam War, the Laotian Secret War ostensibly set the United States, Thailand, and various Laotian factions against Ho Chi Minh's North Vietnamese Army (NVA). In practice, the conflict was as much a civil war as an invasion; and ultimately, it devolved into a slow-motion act of suicide on the part of the Lao nation itself. The U.S. military and its Laotian Hmong allies, led by the resourceful General Vang Pao, made a disciplined effort to prosecute the war through from beginning to end, that effort was steeped in self-serving politics, and hamstrung by factional infighting, irrational decision-making, and self-imposed constraints that ultimately hurt more than they helped. Micromanagement by officers and clueless politicians far from the front was bad enough; far worse was the corruption of the head-butting Lao factions, who seemed unable to see beyond their own immediate needs and certainly had no vision for a strong, united Laos. The so-called Rightists, Leftists, and Neutralist factions simply could not wrap their heads around the concept that their only hope of survival lay in coming together against the relentless, well-equipped NVA. In fact, one faction, the Pathet Lao, repeatedly allied with the NVA against their own countrymen. But the Americans and Vang Pao's Hmong, those who repeatedly found themselves on the sharp end of the spear in the face of waffling, lack of discipline, and, occasionally, sheer cowardice on the part of their allies, refused to give up until, finally, their political leadership turned their backs on them. This is the story of those brave men, and the civilians who helped them fight an increasingly painful and mismanaged war. It was a war in which the political leaders involved proved conclusively that they had learned nothing from history or simply didn't care. Through ineptitude and back-room politicking, the leadership of both Laos and the United States eventually gave Laos to the Communists who proceeded to crush the Lao people into the dust, in the name of a morally bankrupt ideology that they themselves neither practiced nor truly believed in. Billy G. Webb lays out their story with both great precision and compassion in this lively, well-researched book, outlining the events that led us into the morass of the Secret War, and then detailing each bloody campaign of each bloody year. In addition to following the key characters on the U.S./Laotian side, especially the charismatic Vang Pao, he peppers the story with tales of courageous individuals who fell victim to the NVA and the Pathet Lao and, occasionally, the stupidity, incompetence, and gutlessness of people they trusted. Some survived to fight again; but many of these men, military and otherwise, paid the ultimate sacrifice in their fight to keep Laos free. Webb takes special care to showcase two organizations: the brave Forward Air Controllers who called themselves "the Ravens," and Air America, a civilian company (run by the CIA) that supported the military effort and aided the Lao populace whenever they were called upon. Few people have ever heard of the Ravens, those USAF and Army airmen who risked life and limb in tiny Cessna aircraft to locate targets for bombers and fighters to strike. Air America is more famous, due to the 1990 movie of the same name a film that unfairly maligned Air America as a parcel service for Laotian powerbrokers moving drugs and gold out of the country. Webb sets the record emphatically straight. That's not to say that such things weren't happening in Laos; they were. In hindsight, it's easy to condemn the CIA and the U.S. military leadership for allowing the corruption to spread; but as Nietzsche has pointed out, when you look long in *A Season of Reckoning* Jack Jenkins 2011-04-08 The light plane loaded with two million dollars worth of cocaine drifted through the night sky over the Chihuahuan desert searching for a lighted strip in the mountains near the Texas border. The pilot spotted the strip lined with

crude lights. He made a low pass over the area, set the plane down and taxied to the end of the strip where two vans were located. He killed the engine and stepped out of the plane. Two men stood near his door. He saw the two men fall to the ground and then he fell to the ground - all three very dead. Several armed men dressed in black rushed the two vans. Within seconds, several men, again dressed in black, rushed the plane and removed the cocaine from the cargo area. Another man slid into the pilots seat, fired the engine up and flew the plane into Texas. Others in the dope cartel had been killed or captured in the little village of Santa Rosa on the Rio Grande, 18 miles south of the strip. These actions had been practiced many times. It was near the end of a carefully planned exercise to rid the village of the deadly cartel forever. It went like clockwork. The bad guys lose and the good guys win. Sam DeLeon had planned this, with a few of his friends from the agency they worked for, and the men of the village. Sam was retired from a big city P.D. in Texas and had fallen in love with a woman that lived in the village. The cartel people were very cruel to the villagers. Sam and his people put a stop to their activities in Santa Rosa. Further investigation revealed that there was more than dope on that plane, much more.

**Blindfold** Theo Padnos 2021-02-16 An award-winning journalist's extraordinary account of being kidnapped and tortured in Syria by al Qaeda for two years—a revelatory memoir about war, human nature, and endurance that's "the best of the genre, profound, poetic, and sorrowful" (The Atlantic). In 2012, American journalist Theo Padnos, fluent in Arabic, Russian, German, and French, traveled to a Turkish border town to write and report on the Syrian civil war. One afternoon in October, while walking through an olive grove, he met three young Syrians—who turned out to be al Qaeda operatives—and they captured him and kept him prisoner for nearly two years. On his first day, in the first of many prisons, Padnos was given a blindfold—a grime-stained scrap of

fabric—that was his only possession throughout his horrific ordeal. Now, Padnos recounts his time in captivity in Syria, where he was frequently tortured at the hands of the al Qaeda affiliate, Jebhat al Nusra. We learn not only about Padnos's harrowing experience, but we also get a firsthand account of life in a Syrian village, the nature of Islamic prisons, how captors interrogate someone suspected of being CIA, the ways that Islamic fighters shift identities and drift back and forth through the veil of Western civilization, and much more. No other journalist has lived among terrorists for as long as Theo has—and survived. As a resident of thirteen separate prisons in every part of rebel-occupied Syria, Theo witnessed a society adrift amid a steady stream of bombings, executions, torture, prayer, fasting, and exhibitions, all staged by the terrorists. Living within this tide of violence changed not only his personal identity but also profoundly altered his understanding of how to live. Offering fascinating, unprecedented insight into the state of Syria today, *Blindfold* is "a triumph of the human spirit" (The New York Times Book Review)—combining the emotional power of a captive's memoir with a journalist's account of a culture and a nation in conflict that is as urgent and important as ever.
