*Operation Ajax* Mike de Seve  
2020-08-18 Graphic true-life  
spy thriller about the CIA  
mission that overthrew Iran's  
democracy The year is 1953.  
As the value of oil skyrockets,  
global power brokers begin to  
take interest in the political  
regimes of the Middle East.  
British agents have controlled

Iranian oil exports for a  
generation, but the Shah's hold  
on peace is shaky as a  
charismatic leader enters the  
scene. Mohammed  
Mossadegh's calls to overthrow  
the elites resonates among the  
people, and as rumors circulate  
of an impending revolt,  
American, British and Persian  
agents hatch plans of

overthrow. Deals are made behind closed doors. Every actor has a stake. Iran's oil will flow, by any means necessary. Operation Ajax is the story of the CIA coup that removed the democratically elected Mossadegh and reinstated the monarchy. Introduced by New York Times–bestselling author of *All the Shah's Men*, Stephen Kinzer, *Operation Ajax* is a thrilling tale of real-life intrigue.

[Poisoner in Chief](#) Stephen Kinzer 2019-09-10 The bestselling author of *All the Shah's Men* and *The Brothers* tells the astonishing story of the man who oversaw the CIA's secret drug and mind-control experiments of the 1950s and '60s. The visionary chemist Sidney Gottlieb was the CIA's master magician and gentlehearted torturer—the agency's “poisoner in chief.” As head of the MK-ULTRA mind control project, he directed brutal experiments at secret prisons on three continents. He made pills, powders, and potions that could kill or maim without a trace—including

some intended for Fidel Castro and other foreign leaders. He paid prostitutes to lure clients to CIA-run bordellos, where they were secretly dosed with mind-altering drugs. His experiments spread LSD across the United States, making him a hidden godfather of the 1960s counterculture. For years he was the chief supplier of spy tools used by CIA officers around the world. Stephen Kinzer, author of groundbreaking books about U.S. clandestine operations, draws on new documentary research and original interviews to bring to life one of the most powerful unknown Americans of the twentieth century. Gottlieb's reckless experiments on “expendable” human subjects destroyed many lives, yet he considered himself deeply spiritual. He lived in a remote cabin without running water, meditated, and rose before dawn to milk his goats. During his twenty-two years at the CIA, Gottlieb worked in the deepest secrecy. Only since his death has it become possible to piece

together his astonishing career at the intersection of extreme science and covert action. *Poisoner in Chief* reveals him as a clandestine conjurer on an epic scale.

**The Strangling of Persia**

William Morgan Shuster 1912  
The Eagle and the Lion James A. Bill 1988-01-01 A leading scholar of Iran relates the reasons that helped to destroy the American-Iranian relationship and outlines measures to improve future foreign policy-making

**Bitter Fruit** Stephen Schlesinger 2020-12-01 *Bitter Fruit* is a comprehensive and insightful account of the CIA operation to overthrow the democratically elected government of Jacobo Arbenz of Guatemala in 1954. First published in 1982, this book has become a classic, a textbook case of the relationship between the United States and the Third World. The authors make extensive use of U.S. government documents and interviews with former CIA and other officials. It is a warning

of what happens when the United States abuses its power. *The Iranian Constitutional Revolution, 1906-1911* Janet Afary 1996 During the Iranian Constitutional Revolution of 1906 to 1911 a variety of forces played key roles in overthrowing a repressive regime. Afary sheds new light on the role of ordinary citizens and peasantry, the status of Iranian women, and the multifaceted structure of Iranian society.

**The Dust Of Empire** Karl E. Meyer 2004-07-07 When Charles de Gaulle learned that France's former colonies in Africa had chosen independence, the great general shrugged dismissively, "They are the dust of empire." But as Americans have learned, particles of dust from remote and seemingly medieval countries can, at great human and material cost, jam the gears of a superpower. In *The Dust of Empire*, Karl E. Meyer examines the present and past of the Asian heartland in a book that blends scholarship with reportage, providing

fascinating detail about regions and peoples now of urgent concern to America: the five Central Asian republics, the Caspian and the Caucasus, Afghanistan, Iran, Pakistan and long-dominant Russia. He provides the context for America's war on terrorism, for Washington's search for friends and allies in an Islamic world rife with extremism, and for the new politics of pipelines and human rights in an area richer in the former than the latter. He offers a rich and complicated tapestry of a region where empires have so often come to grief—a cautionary tale.

**The Fall of Heaven** Andrew Scott Cooper 2016-08-02 An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi,

Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the American embassy in Tehran; American families caught up in the drama; even

Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.

**The Coup** Ervand Abrahamian 2013-11-05 An “absorbing” account of the CIA’s 1953 coup in Iran—essential reading for anyone concerned about Iran’s role in the world today (Harper’s Magazine). In August 1953, the Central Intelligence Agency orchestrated the swift overthrow of Iran’s democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place. When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini, the shift reverberated

throughout the Middle East and the world, casting a long, dark shadow over United States-Iran relations that extends to the present day. In this authoritative new history of the coup and its aftermath, noted Iran scholar Ervand Abrahamian uncovers little-known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries, past and present. Drawing from the hitherto closed archives of British Petroleum, the Foreign Office, and the US State Department, as well as from Iranian memoirs and published interviews, Abrahamian’s riveting account of this key historical event will change America’s understanding of a crucial turning point in modern United States-Iranian relations. A Choice Outstanding Academic Title “Not only is this book important because of its presentation of history. It is also important because it might be predicting the future.”

**The Last Shah** Ray Takeyh  
2021-01-26 The surprising story of Iran's transformation from America's ally in the Middle East into one of its staunchest adversaries "An original interpretation that puts Iranian actors where they belong: at center stage."-- Michael Doran, Wall Street Journal "For the clearest view of Iran for the last 100 years, this book is it."--Marvin Zonis, author of Majestic Failure: The Fall of the Shah Offering a new view of one of America's most important, infamously strained, and widely misunderstood relationships of the postwar era, this book tells the history of America and Iran from the time the last shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power. This revolution was not,

as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and, ultimately, lost the support of every sector of Iranian society. Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events--including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini--significantly revising our understanding of America and Iran's complex and difficult history.

**Countercoup, the Struggle for the Control of Iran**

Kermit Roosevelt 1979 The former head of the Middle East Department of the CIA during the 1950s, details his involvement in Iranian politics. *Freedom's Battle* Gary J. Bass  
2009-10-13 This gripping and important book brings alive over two hundred years of

humanitarian interventions. Freedom's Battle illuminates the passionate debates between conscience and imperialism ignited by the first human rights activists in the 19th century, and shows how a newly emergent free press galvanized British, American, and French citizens to action by exposing them to distant atrocities. Wildly romantic and full of bizarre enthusiasms, these activists were pioneers of a new political consciousness. And their legacy has much to teach us about today's human rights crises.

All the Shah's Men Stephen Kinzer 2008 Brimming with insights into Middle Eastern history and American foreign policy, this book is an eye-opening look at an event whose unintended consequences--Islamic revolution and violent anti-Americanism--have shaped the modern world.

**The Great Successor** Anna Fifield 2019-06-13 The Great Successor is an irreverent yet insightful quest to understand the life of Kim Jong Un, one of the world's most secretive

dictators. Kim's life is swathed in myth and propaganda, from the plainly silly--he supposedly ate so much Swiss cheese that his ankles gave way--to the grimly bloody stories of the ways his enemies and rival family members have perished at his command. One of the most knowledgeable journalists on modern Korea, Anna Fifield has exclusive access to Kim's aunt and uncle who posed as his parents while he was growing up in Switzerland, members of the entourage that accompanied Dennis Rodman on his quasi-ambassadorial visits with Kim, and the Japanese sushi chef whom Kim befriended and who was the first outsider to identify him as the inevitable successor to his father as supreme ruler. She has been able to create a captivating portrait of the oddest and most isolated political regime in the world, one that is broken yet able to summon a US president for peace talks, bankrupt yet in possession of nuclear weapons. Kim Jong Un; ridiculous but deadly, and a man of our times.

*A Thousand Hills* Stephen Kinzer 2008-06-03 Abstract:  
*Iran Reframed* Narges Bajoghli 2019 An inside look at what it

means to be pro-regime in Iran, and the debates around the future of the Islamic Republic. More than half of Iran's citizens were not alive at the time of the 1979 Revolution. Now entering its fifth decade in power, the Iranian regime faces the paradox of any successful revolution: how to transmit the commitments of its political project to the next generation. New media ventures supported by the Islamic Republic attempt to win the hearts and minds of younger Iranians. Yet members of this new generation--whether dissidents or fundamentalists--are increasingly skeptical of these efforts. *Iran Reframed* offers unprecedented access to those who wield power in Iran as they debate and define the future of the Republic. Over ten years, Narges Bajoghli met with men in Iran's Revolutionary Guard, Ansar Hezbollah, and Basij paramilitary organizations to investigate how their media producers developed strategies to court Iranian youth. Readers

come to know these men--what the regime means to them and their anxieties about the future of their revolutionary project. Contestation over how to define the regime underlies all their efforts to communicate with the public. This book offers a multilayered story about what it means to be pro-regime in the Islamic Republic, challenging everything we think we know about Iran and revolution.

**Turmoil in the Middle East**

Berch Berberoglu Berch Berberoglu examines the dynamic social forces and political turmoil that plague the contemporary Middle East.

**The Middle East in the Global Era** Sallama Shaker

2021-08-03 The Middle East in the Global Era features scholarly perspectives that explore a variety of topics related to the Middle East and North African regions, including politics, international relations, economics, history, gender issues, and culture. Students are encouraged to think analytically regarding issues of prosperity, peace,

stability, sustainable development, and more. Section I explores the physical and political landscapes of the Middle East, underscoring the importance of geography in shaping contemporary affairs. In Section II, students read articles about regional powers, including the rivalry of Iran and Saudi Arabia and the role of Turkey in the Middle East. Section III focuses on political economy with chapters that cover the regional impact of the 2011 Arab uprisings and the rentier economy that prevails in many Gulf states. Section IV examines recent changes in the region that consider political, cultural, and social changes. In the final section, students consider the intricacies involved in pursuing peace in the Middle East. The Middle East in the Global Era is an ideal textbook for any course that explores the social, political, and cultural facets of the Middle East.

The Twilight War David Crist  
2013-07-02 "An important and timely book that should be required reading for anyone

interested in understanding how the United States and Iran went from close allies to enduring enemies." -The Washington Post "Deserves a spot on the short list of must-read books on United States-Iran relations." -The New York Times The dramatic secret history of the undeclared, ongoing war between the U.S. and Iran. The United States and Iran have been engaged in an unacknowledged secret war since the 1970s. This conflict has frustrated multiple American presidents, divided administrations, and repeatedly threatened to bring the two nations to the brink of open warfare. Drawing upon unparalleled access to senior officials and key documents of several U.S. administrations, David Crist, a senior historian in the federal government, breaks new ground on virtually every page of The Twilight War. From the Iranian Revolution to secret negotiations between Iran and the United States after 9/11, from Iran's nuclear program to the secretive and deadly role of

Qasem Soleimani, Crist brings vital new depth to our understanding of “the Iran problem”—and what the future of this tense relationship may bring.

Crescent and Star Stephen Kinzer 2001-09-22 "A sharp, spirited appreciation of where Turkey stands now, and where it may head." —Carlin Romano, The Philadelphia Inquirer In the first edition of this widely praised book, Stephen Kinzer made the convincing claim that Turkey was the country to watch -- poised between Europe and Asia, between the glories of its Ottoman past and its hopes for a democratic future, between the dominance of its army and the needs of its civilian citizens, between its secular expectations and its Muslim traditions. In this newly revised edition of *Crescent and Star*, he adds much important new information on the many exciting transformations in Turkey's government and politics that have kept it in the headlines, and also shows how recent developments in both American and European

policies (and not only the war in Iraq) have affected this unique and perplexing nation.

rebuilding America's strategic partnerships in the Middle East. What can the United States do to help realize its dream of a peaceful, democratic Middle East? Stephen Kinzer offers a surprising answer in this paradigm-shifting book. Two countries in the region, he argues, are America's logical partners in the twenty-first century: Turkey and Iran. Besides proposing this new "power triangle," Kinzer also recommends that the United States reshape relations with its two traditional Middle East allies, Israel and Saudi Arabia. This book provides a penetrating, timely critique of America's approach to the world's most volatile region, and offers a startling alternative. Kinzer is a master storyteller with an eye for grand characters and illuminating historical detail. In this book he introduces us to larger-than-life figures, like a Nebraska schoolteacher who became a martyr to democracy in Iran, a Turkish radical who transformed his country and Islam forever, and a colorful

parade of princes, politicians, women of the world, spies, oppressors, liberators, and dreamers. Kinzer's provocative new view of the Middle East is the rare book that will richly entertain while moving a vital policy debate beyond the stale alternatives of the last fifty years.

2005-07-01 This book describes all the different feelings I have felt throughout my life about love. Times when I thought I was in love and times when I was in love. These feelings for me started as a teenager and continued during my life.

Sometimes we can't explain to

our love ones what we need to say, and since I have that gift, I want to share it with all the lovers and friends throughout the world.

Rooftops of Tehran Mahbod Seraji 2009-05-05 From "a striking new talent"(Sandra Dallas, author of Tallgrass) comes an unforgettable debut novel of young love and coming of age in an Iran headed toward revolution. In this poignant, eye-opening and emotionally vivid novel, Mahbod Seraji lays bare the beauty and brutality of the centuries-old Persian culture, while reaffirming the human experiences we all share. In a middle-class neighborhood of Iran's sprawling capital city, 17-year-old Pasha Shahed spends the summer of 1973 on his rooftop with his best friend Ahmed, joking around one minute and asking burning questions about life the next. He also hides a secret love for his beautiful neighbor Zari, who has been betrothed since birth to another man. But the bliss of Pasha and Zari's stolen time together is shattered

when Pasha unwittingly acts as a beacon for the Shah's secret police. The violent consequences awaken him to the reality of living under a powerful despot, and lead Zari to make a shocking choice...

A Century of Revolution John Foran 1994 This volume offers a much needed look into the historical, social, and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians, and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century.

*The Brothers: John Foster Dulles, Allen Dulles, and Their Secret World War* Stephen Kinzer 2013-10-01 A joint biography of John Foster Dulles and Allen Dulles, who led the United States into an unseen war that decisively shaped today's world During the 1950s, when the Cold War was at its peak, two immensely powerful brothers led the United States into a series of foreign adventures whose

effects are still shaking the world. John Foster Dulles was secretary of state while his brother, Allen Dulles, was director of the Central Intelligence Agency. In this book, Stephen Kinzer places their extraordinary lives against the background of American culture and history. He uses the framework of biography to ask: Why does the United States behave as it does in the world? The Brothers explores hidden forces that shape the national psyche, from religious piety to Western movies—many of which are about a noble gunman who cleans up a lawless town by killing bad guys. This is how the Dulles brothers saw themselves, and how many Americans still see their country's role in the world. Propelled by a quintessentially American set of fears and delusions, the Dulles brothers launched violent campaigns against foreign leaders they saw as threats to the United States. These campaigns helped push countries from Guatemala to the Congo into

long spirals of violence, led the United States into the Vietnam War, and laid the foundation for decades of hostility between the United States and countries from Cuba to Iran. The story of the Dulles brothers is the story of America. It illuminates and helps explain the modern history of the United States and the world. A Kirkus Reviews Best Nonfiction Book of 2013

**Mohammad Mosaddeq and the 1953 Coup in Iran** Mark J. Gasiorowski 2015-02-01  
Mohammad Mosaddeq is widely regarded as the leading champion of secular democracy and resistance to foreign domination in Iran's modern history. Mosaddeq became prime minister of Iran in May 1951 and promptly nationalized its British-controlled oil industry, initiating a bitter confrontation between Iraq and Britain that increasingly undermined Mossaddeq's position. He was finally overthrown in August 1953 in a coup d'etat that was organized and led by the United States

Central Intelligence Agency. This coup initiated a twenty-five-year period of dictatorship in Iran, leaving many Iranians resentful of the U.S. legacies that still haunt relations between the two countries today. Contents include: "Mosaddeq's Government in Iranian History: Arbitrary Rule, Democracy, and the 1953 Coup" - Homa Katouzian; "Unseating Mosaddeq: The Configuration and Role of Domestic Forces" - Fakhreddin Azimi; "The 1953 Coup in Iran and the Legacy of the Tudeh" - Maziar Behrooz; "Great Britain and the Intervention in Iran, 1953" - Wm. Roger Louis; "The International Boycott of Iranian Oil and the Anti-Mossaddeq Coup of 1953" - Mary Ann Heiss; "The Road to Intervention: Factors Influencing U.S. Policy Toward Iran, 1945-1953" - Malcolm Byrne; "The 1953 Coup d'etat Against Mosaddeq" - Mark J. Gasiorowski

The True Flag Stephen Kinzer  
2017-01-24 The bestselling author of *Overthrow* and *The Brothers* brings to life the

forgotten political debate that set America's interventionist course in the world for the twentieth century and beyond. How should the United States act in the world? Americans cannot decide. Sometimes we burn with righteous anger, launching foreign wars and deposing governments. Then we retreat—until the cycle begins again. No matter how often we debate this question, none of what we say is original. Every argument is a pale shadow of the first and greatest debate, which erupted more than a century ago. Its themes resurface every time Americans argue whether to intervene in a foreign country. Revealing a piece of forgotten history, Stephen Kinzer transports us to the dawn of the twentieth century, when the United States first found itself with the chance to dominate faraway lands. That prospect thrilled some Americans. It horrified others. Their debate gripped the nation. The country's best-known political and intellectual leaders took sides. Theodore

Roosevelt, Henry Cabot Lodge, and William Randolph Hearst pushed for imperial expansion; Mark Twain, Booker T. Washington, and Andrew Carnegie preached restraint. Only once before—in the period when the United States was founded—have so many brilliant Americans so eloquently debated a question so fraught with meaning for all humanity. All Americans, regardless of political perspective, can take inspiration from the titans who faced off in this epic confrontation. Their words are amazingly current. Every argument over America's role in the world grows from this one. It all starts here.

*The Oil Kings* Andrew Scott Cooper 2012-09-11 Reveals the covert agreements that prompted America's decision to switch allegiance from Iran to Saudi Arabia as a dominant Middle-East oil supplier, citing the contributions of key players from Richard Nixon and Henry Kissinger to the Shah and Gerald Ford while explaining how choices in the 1970s set

Reset Middle East Stephen Kinzer 2011 What can the United States do to help realize its dream of a peaceful, democratic Middle East? Kinzer provides a penetrating, timely critique of America's approach to the world's most volatile region, and offers a startling alternative.
