Inspired by the pioneering parenting philosophy of her friend and mentor, Magda Gerber, Janet's influential voice encourages parents and child care professionals to perceive babies as unique, capable human beings with natural abilities to learn without being taught; to develop motor and cognitive skills; communicate; face age appropriate struggles; initiate and direct independent play for extended periods; and much more. Once we are able to view our children in this light, even the most common daily parenting experiences become stimulating opportunities to learn, discover, and to connect with our child. The Respect Effect: Using the Science of Neuroleadership to Inspire a More Loyal and Productive Workplace

Paul Meshanko
2013-08-16 What does every employee want? In a word: RESPECT The best leaders are the ones who motivate employees to want to perform at the highest level possible--which is never accomplished with an iron-fist style of management. The best results are achieved through one of the most basic human behaviors: the showing of respect. Organizational change expert Paul Meshanko has studied how the human brain responds in various workplace situations--and his conclusion is astonishing: People perform at their highest level when treated with respect. Conversely, when an employee is emotionally attacked by disrespectful behavior, he or she shuts down. In The Respect Effect, Meshanko reveals the

transformational power of respect in the workplace. Given the pressures of the workplace, this is sometimes easier said than done. So Meshanko provides a practical action plan you can use to train yourself or others to get on track--and stay on track. His proven strategy helps you understand the initial, biological reactions to what people (This means you!) say and do. Through his cited research in neuroscience, Meshanko teaches you how to create positive situations, avoid negative ones, and ultimately build a better work environment for everyone. The Respect Effect explains: The hard science proving why respect is the most powerful employee motivator How to build a corporate culture based on respect, starting with senior leadership The 12 Rules of Respect--simple but powerful ways to communicate respectfully in any situation The strategy, resource requirements, and tools for sustaining a respectful workplace culture How do you use the concept of

neuroscience to achieve a great work environment? The answer is obvious. Feed others a diet of respect--real, deserved, genuine respect--and you will see amazing things happen in your organization. Use Meshanko's proven approach to organizational change to create a culture of contagious respect in your organization. CEO, Medical Mutual "[Meshanko] shows how demonstrating respect to employees leads to better health and well-being for both the organization and the individual. Jane has over twenty years experience working in Christian Day Camps. Her first job was as an assistant craft counselor, and through the years she worked her way up to eventually directing the camps, and then eventually pioneering a brand new day camp program which served a community desperately in need of programs for children. She wrote *How To Start a Christian Day Camp* because she passionately believes that Day Camps provide an excellent opportunity for churches to be able to reach several members of the community. Jane has seen camps meet the needs of parents, by providing something for their children; kids, by providing fun and exciting programs, and youth, by providing an opportunity to serve. Jane has learned a lot through all of her experiences, and she seeks to help others learn as well. Her hope is that

churches or individuals will be encouraged and inspired to start Christian Day Camps and see the fun and exciting changes they can bring to a community. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.

Manual for Moms and Dads may be the closest book to that much needed manual. This book is for parents whose normal children are driving them up the wall, and parents who want to improve their parenting skills while things are still going well. The Respectful Parent is written in a personal style by an author, who has over 55 years of clinical experience working with families and individuals of all ages. Dr. Deutch believes that respect between parent and child, along with a toolbox of great common sense techniques, is the key to having a cooperative, happy and productive family. Spanking, yelling, and threats may work on your child in the immediate situation, but scientific research shows that in the long term, they have many negative and sometimes catastrophic side effects. The Respectful Parent teaches how to use positive and democratic ways to nurture children. These ideas are based on the commonsensical philosophy of Doctors Alfred Adler and

Rudolph Dreikurs. Learn to use the power of encouragement, the family council, individual special time, natural and logical consequences, and simple communication techniques. Become your child's consultant rather than boss. Raise your child's self-esteem, courage, mental health, and even his or her I.Q.

Parenting can be such an overwhelming job that it's easy to lose track of where you stand on some of the more controversial subjects at the playground (What if my kid likes to rough house—isn't this ok as long as no one gets hurt? And what if my kid just doesn't feel like sharing?). In this inspiring and enlightening book, Heather Shumaker describes her quest to nail down "the rules" to raising smart, sensitive, and self-sufficient kids. Drawing on her own experiences as the mother of two small children, as well as on the work of child psychologists, pediatricians, educators and so on, in this book Shumaker gets to the heart of the matter on a host of important questions. Hint: many of the rules aren't what you think they are! The "rules" in this book focus on the toddler and preschool years—an important time for laying the foundation for competent and compassionate older kids and then adults. Here are a few of the rules: • It's OK if it's not hurting people

or property • Bombs, guns and bad guys allowed. • Boys can wear tutus. • Pictures don't have to be pretty. • Paint off the paper! • Sex ed starts in preschool • Kids don't have to say "Sorry." • Love your kid's lies. IT'S OK NOT TO SHARE is an essential resource for any parent hoping to avoid PLAYDATEGATE (i.e. your child's behavior in a social interaction with another child clearly doesn't meet with another parent's approval)!

The Empathy Advantage Lynne Azarchi 2020-11-04 We live in a time when empathy is not only lacking but on the decline. Kids are bullied because of the color of their skin, religion, culture, a disability and more. Bullying and cyberbullying are increasing, especially for black and brown kids, LGBT youth, and Jewish and Muslim youth.

Fueled by decreases in respect, kindness, and compassion, the house is on fire! Empathy may be not be a cure-all, but just a little effort can transform a child into a more sensitive, caring human being. The good news is that empathy - the ability to "walk in someone else's shoes" - can be taught. This book is all about teaching adults to teach empathy to kids. The payoff will last a lifetime. In this helpful guide, parents, caregivers and teachers are coached to help their children and students to develop social-emotional skills that will equip them to better navigate the world with self-compassion and empathetic concern. The Empathy Advantage is for the busiest parents and educators. It provides tips, strategies, online resources, and activities that are fun and engaging and take just 10 to 20 minutes.
