Music Collection Development and Management in the Digital Age Kirstin Dougan Johnson Music Collection Development and Management in the Digital Age offers both a theoretical context and practical approaches to the issues facing today's music collection builders and managers. In this exciting new book, Kirstin Dougan Johnson engages readers with many of the core responsibilities involved with music collections, in both music library and general library settings. The author examines the whole of music collections, incorporating into that vision guidance on the principles and tasks involved with collection building, acquisitions, management, and assessment. Details include music formats and publishing, music identification and discoverability, the context of music collections and the tasks involved in building and scoping them, diversity and inclusion in music collections, budgets and acquisitions workflows, pre- and post-order tasks, collection management and assessment, and future directions for collection development in music. With its focus on issues related to music scores and media in physical and electronic forms, Music Collection Development and Management in the Digital Age directly addresses subject librarians who select music materials in academic libraries. The volume also serves music librarians in other settings, such as public and conservatory libraries. All in all, Music Collection Development and Management in the Digital Age is an essential reference for all who work with music collections, whether in music libraries specifically, general library collections with music holdings, or centralized library acquisitions departments.

Collaborative Electronic Resource Management Joan E. Conger 2004-11-30 "The author demonstrates how collection development, acquisitions, licensing, budgeting, and cataloging techniques; technological infrastructure; and user services for electronic resources fit into the new collaborative management that relies on constant learning and adaptation in order to respond to change and to improve the library's service value through relationships between library professionals, and with library customers. The approach - engaging the librarian in a cycle of constant learning and assessment - ultimately makes work lighter, relationships with colleagues and customers more productive, and library services more relevant to

community needs."--BOOK JACKET.

Lawn Boy Jonathan Evison 2019-03-19 Winner of the Alex Award "Mike Muñoz Is a Holden Caulfield for a New Millennium--a '10th-generation peasant with a Mexican last name, raised by a single mom on an Indian reservation' . . . Evison, as in his previous four novels, has a light touch and humorously guides the reader, this time through the minefield that is working-class America." --The New York Times Book Review For Mike Muñoz, life has been a whole lot of waiting for something to happen. Not too many years out of high school and still doing menial work--and just fired from his latest gig as a lawn boy on a landscaping crew--he's smart enough to know that he's got to be the one to shake things up if he's ever going to change his life. But how? He's not qualified for much of anything. He has no particular talents, although he is stellar at handling a lawn mower and wielding clipping shears. But now that career seems to be behind him. So what's next for Mike Muñoz? In this funny, biting, touching, and ultimately inspiring novel, bestselling author Jonathan Evison takes the reader into the heart and mind of a young man determined to achieve the American dream of happiness and prosperity--who just so happens to find himself along the way.

Collection Development Policy 2010 This Collection Development Policy, along with companion policies, stands with the Strategic Plan and annual budget documents as critical management and decision making tools for the Library. Not only does it provide guidance for the selection and acquisition of our basic information materials, the Collection Policy defines the fundamental nature of our collection: its focus, what should or should not be included, what subject areas support the needs of South Carolinians, and how it must reflect the expanding array of electronic information resources that are available.

Patron-Driven Acquisitions Judith M. Nixon 2014-01-02 For over a decade, some academic libraries have been purchasing, rather than borrowing, recently published books requested by their patrons through interlibrary loan. These books had one circulation guaranteed and so appealed to librarians who were concerned about the large percentage of books selected and purchased by librarians but never checked out by their patrons. Early assessments of the projects indicated that patrons selected quality books that in many cases were cross disciplinary and covered emerging areas of scholarly interest. However, now we have a significant database of the ILL purchase records to compare these titles with books selected through normal methods. The projects described in this book present a powerful argument for involving patrons in the book selection process. This book looks at patron-driven acquisitions for printed books at Purdue University, the University of Nebraska-Lincoln and the University of Illinois, as well as exploring new programs that allow patrons to select e-books or participate in other innovative ways in building the library collections. This book was published as a special issue of *Collection Management*.

No Shelf Required American Library Association 2011 Sue Polanka brings together a variety of professionals to share their expertise about e-books with librarians and publishers. Providing forward-thinking ideas while remaining grounded in practical information that can be implemented in all kinds of libraries, the topics explored include an introduction to e-books and their different types, an overview of their history and development, e-book technology, why e-books are good for learning, and how librarians can market them to a wide range of users.--[back cover]

Library as Place Geoffrey T. Freeman 2005 What is the role of a library when users can obtain information from any location? And what does this role change mean for the creation and design of library space? Six authors an architect, four librarians, and a professor of art history and classics explore these questions this report. The authors challenge the reader to think about new potential for the place we call the library and underscore the growing importance of the library as a place for teaching, learning, and research in the digital age.

[Electronic Resource Management Systems](#) Elsa K. Anderson 2014-05-16 To get to the bottom of a successful approach to Electronic Resource Management (ERM), Anderson interviewed staff at 11 institutions about their ERM implementations. Among her conclusions, presented in this issue of Library Technology Reports, is that grasping the intricacies of your workflow—analyzing each step to reveal the gaps and problems—at the beginning is crucial to selecting and implementing an ERM. Whether the system will be used to fill a gap, aggregate critical data, or replace a tedious manual process, the best solution for your library depends on factors such as your current software setup, staffing levels, and local support from systems staff. Providing guidance to library technology decision-makers, this report offers coverage of such important topics as: The five major elements of managing electronic resources: knowledge bases, acquisitions, administration and contracts, licensing, and reporting; Vendor systems from EBSCO, Ex Libris, and Innovative Interfaces, as well as three open source (OS) solutions; How ERMs function as a component of the library service platforms of OCLC Worldshare, Ex Libris Alma, Serial Solutions Intota, Quali OLE, and Innovative Interfaces Sierra

[Transforming Acquisitions and Collection Services](#) Michelle Flinchbaugh 2019-09-15 This book explores ways in which libraries can reach new levels of service, quality, and efficiency while minimizing cost by

collaborating in acquisitions. In consortial acquisitions, a number of libraries work together, usually in an existing library consortia, to leverage size to support acquisitions in each individual library. In cross-functional acquisitions, acquisitions collaborates to support other library functions. For the library acquisitions manager, technical services manager, or the library director, awareness of different options for effective consortial and cross-functional acquisitions allows for the optimization of staff and resources to reach goals. This work presents those options in the form of case studies as well as useful analysis of the benefits and challenges of each. By supporting each other's acquisitions services in a consortium, libraries leverage size to get better prices, and share systems and expertise to maximize resources while minimizing costs. Within libraries, the acquisitions function can be combined with other library functions in a unit with more than one purpose, or acquisitions can develop a close working relationship with another unit to support their work. This book surveys practice at different libraries and at different library consortia, and presents a detailed description and analysis of a variety of practices for how acquisitions units support each other within a consortium, and how they work with other library units, specifically collection management, cataloging, interlibrary loan, and the digital repository, in the form of case studies. A final section of the book covers fundamentals of collaboration.
