The King: A Novel Kader Abdolah 2015-10-27

A hypnotic page-turner about the grinding gears of historical change and ruthless palace intrigue in Persia, c. 1848. The King, young Shah Naser, takes to the throne of Persia at a turning point of history: he inherits an enchanted medieval world of harems, eunuchs, and treasures as well as a palace of secret doors, sudden deaths, and hidden agendas. Within the court is danger enough: outside all manner of change threatens—industrialization, colonization. Russia and England conspire to open the King's empire; his mother and his vizier take opposing sides. The poor King—almost an exact contemporary of Queen Victoria—is trapped. He likes some aspects of modernity (electricity, photography) but can't embrace democracy. He must be a sovereign: he must keep his throne. The King cannot face change and he cannot escape it. With this gleaming and seemingly simple story, breathlessly paced and beautifully told, Kader Abdolah, the acclaimed Iranian émigré novelist, speaks of deeper truths. A novel which has many timely things to say about eras of change and upheaval, *The King* is an unforgettable book.

The Dying Sun Joginder Paul 2013-12-01 Does age ever catch up with the immortal? Listen in as Heer and Ranjha converse in whispered tones of a time that was; walk around with Lord Ram who has stepped out of the mosque compound, unable to cope with the frenzy of devotees who have installed him there; fly away to London, where the ageing Kasturi Lal Brahman struggles to let go of the idea of India; follow the travails of a 'perfect couple' who compromise on everything that is decent to create the 'perfect life' for themselves; listen to a dog who has walked off the pages of an author's stories to engage him in discussion on the world he has left behind. The Dying Sun collects eminent Urdu writer Joginder Paul's stories of wonder, whimsy and wisdom. With elegant simplicity, Paul describes the journeys of his characters through myriad landscapes, from the tangible to the internal and the imagined. A pungent satire on liberalization, a mother's plangent longing for her son, a playful take on an accountant's obsession with a character in a TV serial as he copes with the drudgery of his daily life - Paul's writing encompasses worlds that defy the imagination.

Not indexed. Not illustrated. 1896 edition. Excerpt: ... THE PASSING OF MAJOR MERRIWETHER. L 'HEN I arrived at Doctor Weymouth's house, he was at dinner. He had been detained quite late by his calls, and, as he expressed it, was now assiduously attending to his most exacting patient, his stomach. Pete announced my arrival, and returned with the message that his master wished to see me in the dining-room. I found the doctor eating his repast in solitude. "Ah! good evening, sir," he said, "I

am more than glad to see you. Mrs. Weymouth went to a ladies' reception this afternoon and has not yet returned, consequently, I was beginning to be a bit lonesome. Will you not join me?--I have but just commenced my dinner." "I thank you, doctor," I replied, "but I have just arisen from the table myself, and could not possibly do your hospitable board full justice." "Oh, well," said the doctor, "you will at least partake of a cup of coffee--there's always room for that, you know. Besides, I want you to keep me company for my digestion's sake. And, by the way, I haven't had time to glance at the evening paper yet--would you mind looking it over and reading anything that seems interesting?" "Why, I should be glad to do so, sir," I replied. After scanning the headlines for a moment, I turned to the editorial page and said, "Well, doctor, I don't see much in the news columns that I would consider interesting, but here are several editorials which seem rather suggestive." "Ah, indeed!" said my friend. "Pray read them." I then began reading an article on the suicide problem, in which the suicide was stigmatized in unmeasured terms as a coward. Doctor Weymouth interrupted me with-- "That is enough of that, my boy. The editor is singing the same old song upon a subject he knows very little about. I presume there are...

Doing Excellent Social Research with Documents

Aimee Grant 2018-09-03 In today's society we increasingly create and consume written content and images. This includes a range of sources, from social media posts to records held within organisations, and everything in between, including news articles, blogs, shopping lists and official government documents. Critically reading these 'documents' can help us to understand a huge amount about society. Doing

Excellent Social Research with Documents includes guidance on how to 'read between the lines', and provides an overview of six research projects which use documents as data. The substantive chapters are organised in two sections, with each chapter focused on a specific type of data. Section one focuses on documents that are found in isolation from their authors, including official and historical documents, traditional media, diaries and online content. Section two focuses on using documents in addition to existing data from primary research, including the role of documents in ethnography and visual research methods. In each chapter, you will be guided through the process of:

- Developing research questions, and how this impacts on which documents are selected;
- Considering aspects of bias and quality within the documentary sources;
- Undertaking analysis using six different strategies including thematic analysis, framework analysis, content analysis, discourse analysis and narrative analysis.

Drawing on research projects which reflect real world situations, you will be methodically guided through the research process in detail, enabling you to examine and understand the practices and value of a range of documentary analysis approaches. Doing Excellent Social Research with Documents is a practical how-to guide for students (final year undergraduates onwards) and researchers using documents as data.

The Health Consequences of Involuntary Exposure to Tobacco Smoke 2006 This Surgeon General's report returns to the topic of the health effects of involuntary exposure to tobacco smoke. The last comprehensive review of this evidence by the Department of Health and Human Services (DHHS) was in the 1986 Surgeon General's report, *The Health Consequences of Involuntary Smoking*, published 20 years ago this year. This new report updates the evidence of the harmful effects of involuntary exposure to tobacco smoke. This large body of research findings is captured in an accompanying dynamic database that profiles key epidemiologic findings, and allows the evidence on health effects of exposure to tobacco smoke to be synthesized and updated (following the format of the 2004 report, *The Health Consequences of Smoking*). The database enables users to explore the data and studies

supporting the conclusions in the report. The database is available on the Web site of the Centers for Disease Control and Prevention (CDC) at <http://www.cdc.gov/tobacco>.

Return to the Caffe Cino Steve Susoyev 2007-01-01 RETURN TO THE CAFFE CINO gives a fresh, exciting portrait of the non-

commercial NY theater scene in the 1960's. The scene is painted here by dozens of short essays by the artists that were a part of the creative fission that flared so brightly there and that still influences so much of today's theatre. The eyewitness stories are usually hysterically funny, filled with that sense of freedom that ignited a movement that continues today in small independent theaters. And the editors of the anthology have filled the pages with vintage pictures, including one of a fifteen-year-old Bernadette Peters getting her start at the Caffe Cino!

How Tobacco Smoke Causes Disease 2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

The Longest Way Home Andrew McCarthy 2013-06-04 The author, a travel writer and actor, delivers a memoir about how travel helped him become the man he wanted to be, helping him overcome life-long fears and confront his resistance to commitment. From time immemorial, travel has been a pursuit of passion, from adventurers of old seeking gold or new lands, to today's spiritual and pleasure seekers who follow in the footsteps of Elizabeth Gilbert. Some see travel as a form of light-hearted escapism while others believe it has the power to open your mind, forcing you to confront your demons, and discover your true self. The author belongs to this second category of traveler. His memoir follows his excursions to Patagonia, the Amazon, Costa Rica, Baltimore, Vienna, Kilimanjaro, Dublin, and beyond. He uses his wanderlust to examine his motives and desires, and explore his ambivalence about commitment. He ponders his personal life, his acting career, and his impulse to leave home, all building toward one of the most significant moments of his life: his wedding day. His message about the transformative power of travel is universal, and his exploration of the nature and passion of relationships, both fleeting and enduring, strikes a chord with every man and woman who has ever wondered at the vicissitudes of the human heart.
