The Handmaid's Tale Margaret

Atwood 2010-12-10 An instant classic and eerily prescient cultural phenomenon, from “the patron saint of feminist dystopian fiction” (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the story of Offred, one of the unfortunate “Handmaids” under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming

friendships, Offred’s persistent memories of life in the “time before” and her will to survive are acts of rebellion.

Provocative, startling, prophetic, and with Margaret Atwood’s devastating irony, wit, and acute perceptive powers in full force, *The Handmaid’s Tale* is at once a mordant satire and a dire warning.

Leadership Theory and the Community College Carlos

Nevarez 2023-07-03 This book presents leaders and aspiring leaders in community colleges with a theoretical and practical framework for analyzing their leadership styles, and determining the dimensions of leadership they need to improve in order to strengthen their capacity to resolve complex issues and effectively guide their institutions. It does so through presenting theories about leadership that are congruent with the notions of equity, access, diversity, ethics, critical inquiry, transformational change, and social justice that drive the missions of community

colleges, and at the same time provides the reader with the strategic skills to prepare for and navigate the profound changes ahead. Readers will gain an understanding of how to use theory as a tool to guide their practice, better understand the intricacies of the issues confronting them, the power dynamics and organizational context in which they operate, predict potential outcomes, and develop processes to achieve desired outcomes. Utilizing theory in conjunction with case study analysis provides community college leaders with the tools needed to comprehensively interrogate and inform decision-making processes. The authors provide a number of rich and realistically complex case studies, all of which are situated in a community college environment, to which readers can apply the various theories and perspectives, develop their view about the principles and actions most likely to lead to satisfactory outcomes, and hone the approaches to leadership that

are authentic to them, and effective. The authors aim to help readers develop the multi-faceted approach to leadership that is essential to running complex organizations. They aim to promote development of the “whole” leader through a three-fold framework of theory, practice, and introspection in context of institutional change. In doing so, leaders will be better equipped to lead community colleges in challenging times. The authors tie AACCC’s competencies to the leadership theories they cover, as well as to the analysis of the case studies, and leadership inventories, as an essential framework for developing the skill sets to enact the community college mission. The book is suitable for personal reading and reflection, institutional leadership retreats and training, and as a text for higher education courses.

Airdrop of Supplies and Equipment 1975 Container loads are loads that are rigged for airdrop in airdrop containers such as the A-7A cargo sling, the A-21 cargo

bag, and the A-22 cargo bag. In addition, flat steel strapping is used to rig container loads. The containers are packed with supplies, disassembled equipment, or small items of ready-to-use equipment prepared for airdrop. The container load requires cushioning material such as honeycomb, felt, or cellulose wadding, depending on the load requirements and the method of airdrop. The number and types of parachutes required to stabilize and retard the descent of the load depends on the type of container used, the weight of the load, and the type of airdrop.

Police Promotion Super

Course Andrew Borrello

2013-01-07 The contents of this book are designed specifically for law enforcement officers, front-line supervisors, and managers who have reached the point in their careers where they are ready to advance their rank. The focus of this information is on the police promotional oral interview. In a majority of police agencies across the country the oral interview is both the most critical part of the promotion process and the most difficult. An officer's performance during the oral interview is paramount because the process is highly competitive. Officers must "out-score" others also vying for promotion. This is difficult in that candidates may be competing against dozens or even hundreds of other police personnel many of whom may have greater education or more experience. The goal of this book is to provide professional law enforcement officers with a highly effective and valuable preparatory edge. This "edge"

translates into real-world techniques, easy-to-apply skills, and a wealth of information on how to be distinctive and perform in an exceptional manner during the oral interview. The police officer, deputy, supervisor, or manager who utilizes the content of this unique book correctly can stand out among the other candidates, be more competitive, achieve preparatory confidence, and up their performance toward higher interview scores.

A Historical Review and Analysis of Army Physical Readiness Training and Assessment

Whitfield East
2013-12 "The Drillmaster of Valley Forge-Baron Von Steuben-correctly noted in his "Blue Book" how physical conditioning and health (which he found woefully missing when he joined Washington's camp) would always be directly linked to individual and unit discipline, courage in the fight, and victory on the battlefield. That remains true today. Even an amateur historian, choosing any study on the performance

of units in combat, quickly discovers how the levels of conditioning and physical performance of Soldiers is directly proportional to success or failure in the field. In this monograph, Dr. Whitfield "Chip" East provides a pragmatic history of physical readiness training in our Army. He tells us we initially mirrored the professional Armies of Europe as they prepared their forces for war on the continent. Then he introduces us to some master trainers, and shows us how they initiated an American brand of physical conditioning when our forces were found lacking in the early wars of the last century. Finally, he shows us how we have and must incorporate science (even when there exists considerable debate!) to contribute to what we do-and how we do it-in shaping today's Army. Dr. East provides the history, the analysis, and the pragmatism, and all of it is geared to understanding how our Army has and must train Soldiers for the physical demands of combat. Our culture is

becoming increasingly "unfit," due to poor nutrition, a lack of adequate and formal exercise, and too much technology. Still, the Soldiers who come to our Army from our society will be asked to fight in increasingly complex and demanding conflicts, and they must be prepared through new, unique, and scientifically based techniques. So while Dr. East's monograph is a fascinating history, it is also a required call for all leaders to better understand the science and the art of physical preparation for the battlefield. It was and is important for us to get this area of training right, because getting it right means a better chance for success in combat.

2010 ADA Standards for Accessible Design

Department Justice 2014-10-09
(a) Design and construction. (1) Each facility or part of a facility constructed by, on behalf of, or for the use of a public entity shall be designed and constructed in such manner that the facility or part of the facility is readily accessible to and usable by individuals with disabilities, if the construction was commenced after January 26, 1992. (2) Exception for structural impracticability. (i) Full compliance with the requirements of this section is not required where a public entity can demonstrate that it

is structurally impracticable to meet the requirements. Full compliance will be considered structurally impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features. (ii) If full compliance with this section would be structurally impracticable, compliance with this section is required to the extent that it is not structurally impracticable. In that case, any portion of the facility that can be made accessible shall be made accessible to the extent that it is not structurally impracticable. (iii) If providing accessibility in conformance with this section to individuals with certain disabilities (e.g., those who use wheelchairs) would be structurally impracticable, accessibility shall nonetheless be ensured to persons with other types of disabilities, (e.g., those who use crutches or who have sight, hearing, or mental impairments) in accordance with this section.

(Formerly MCWP 6-11)

Leading Marines 2 May 2016
The act of leading Marines is a sacred responsibility and a rewarding experience. This

publication describes a leadership philosophy that speaks to who we are as Marines. It is about the relationship between the leader and the led. It is also about the bond between all Marines that is formed in the common forge of selfless service and shared hardships. It's in this forge where Marines are hardened like steel, and the undefinable spirit that forms the character of our Corps is born. It draws from shared experiences, hardships, and challenges in training and combat. Leading Marines is not meant to be read passively; as you read this publication, think about the material. You should reflect on, discuss, and apply the concepts presented in this publication. Furthermore, it is the responsibility of leaders at all levels to mentor and develop the next generation of Marine leaders.
