

48 Liberal Lies About American History

48 Liberal Lies About American History Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has been evident than ever. They have the ability to inspire, provoke, and ignite change. Such may be the essence of the book **48 Liberal Lies About American History**, a literary masterpiece that delves deep to the significance of words and their affect our lives. Published by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we will explore the book's key themes, examine its writing style, and analyze its overall effect on readers.

[The Politically Incorrect Guide to American History](#) Thomas E. Woods, Jr. 2004-01-04 The bestselling Politically Incorrect Guide to American History reveals facts that you won't be--or never were--taught in school, tells you about the "Books You're Not Supposed to Read," and gives you all the information you need to battle and confound left-wing professors, neighbors, and friends.

[Trident](#) D. Douglas Dalglish 1984 While it was still in the development stage, Rear Admiral Albert Kelln predicted that Trident would "Extend the seabased deterrent survivability we currently enjoy into the 21st century." On the other hand, the Congressional Research Service's Brief on United States defense industrial preparedness contended that the Trident project appeared "to demonstrate all three categories of symptoms mentioned . . . delay, severe cost overruns, and poor workmanship." Dalglish and Schweikart seek to resolve these points of view by an in depth analysis of every aspect of the submarine program, including the political struggles involved in activating the program, the construction process, the vessel itself, improvements in submarine technology that will affect it, and descriptions of its base. They trace the history of the Trident submarine program from its beginning as a part of the "STRAT-X" study of 1967 to the present. Because cost has so frequently been the overriding concern during the Trident's development, the authors provide a cost comparison of the Trident system to several other systems. They conclude that on balance the Trident system has not been exceedingly costly.

Seven Events that Made America America Larry Schweikart 2010 "The author of 48 Liberal Lies About American History reveals lesser-known events that have significantly influenced America's development, from Martin Van Buren's creation of a national political party to Eisenhower's heart attack that prompted federal dietary recommendations."

Seven Events That Made America America Larry Schweikart 2010-06-01 A conservative historian examines some of the pivotal, yet often ignored, moments that shaped our history All students of American history know the big events that dramatically shaped our country. The Civil War, Pearl Harbor, the assassination of John F. Kennedy, and 9/11 are just a few. But there are other, less famous events that had an equally profound impact. Notable conservative historian Larry Schweikart takes an in- depth look at seven of these transformative moments and provides an analysis of how each of them spurred a trend that either confirmed or departed from the vision our Founding Fathers had for America. For instance, he shows how Martin Van Buren's creation of a national political party made it possible for Obama to get elected almost two centuries later and how Dwight Eisenhower's heart attack led to a war on red meat, during which the government took control over Americans' diets. In his easy-to-read yet informative style, Schweikart will not only educate but also surprise readers into reevaluating our history.

[The Irony of American History](#) Reinhold Niebuhr 2010-01-22 "[Niebuhr] is one of my favorite philosophers. I take away [from his works] the compelling idea that there's serious evil in the world, and hardship and pain. And we should be humble and modest in our belief we can eliminate those things. But we shouldn't use that as an excuse for cynicism and inaction. I take away . . . the sense we have to make these efforts knowing they are hard."—President Barack Obama Forged during the tumultuous but triumphant postwar years when America came of age as a world power, *The Irony of American History* is more relevant now than ever before. Cited by politicians as diverse as Hillary Clinton and John McCain, Niebuhr's masterpiece

on the incongruity between personal ideals and political reality is both an indictment of American moral complacency and a warning against the arrogance of virtue. Impassioned, eloquent, and deeply perceptive, Niebuhr's wisdom will cause readers to rethink their assumptions about right and wrong, war and peace. "The supreme American theologian of the twentieth century."—Arthur Schlesinger Jr., *New York Times* "Niebuhr is important for the left today precisely because he warned about America's tendency—including the left's tendency—to do bad things in the name of idealism. His thought offers a much better understanding of where the Bush administration went wrong in Iraq."—Kevin Mattson, *The Good Society* "Irony provides the master key to understanding the myths and delusions that underpin American statecraft. . . . The most important book ever written on US foreign policy."—Andrew J. Bacevich, from the Introduction

[The Age of American Unreason](#) Susan Jacoby 2009-02-01 A scathing indictment of American modern-day culture examines the current disdain for logic and evidence fostered by the mass media, religious fundamentalism, poor public education, a lack of fair-minded intellectuals, and a lazy, credulous public, condemning our addiction to infotainment, from TV to the Web, and assessing its repercussions for the country as a whole. Reprint. 75,000 first printing.

[Setting the Record Straight](#) David Barton 2004-01-01 A unique view of the religious and moral heritage of African Americans that has been expertly intertwined with untold, yet significant stories from our rich African American political history. The material presented is ground-breaking and revolutionary; leaving viewers inspired and educated.

These Truths: A History of the United States Jill Lepore 2018-09-18 *New York Times* Bestseller In the most ambitious one-volume American history in decades, award-winning historian and *New Yorker* writer Jill Lepore offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a

burden," These Truths observes. "It can't be shirked. There's nothing for it but to get to know it." *The Jefferson Lies* David Barton 2012 "Thomas Jefferson stands falsely accused of several crimes, among them infidelity and disbelief. Noted historian David Barton now sets the record straight. Having borne the brunt of a smear campaign that started more than two centuries ago, the reputation and character of American president Thomas Jefferson shows considerable tarnish, as lies and misunderstandings have gathered on his legacy. Noted early-America historian David Barton scours out the truth. Jefferson and Sally: Did he really have children by his slave, Sally Hemings? Jefferson and Jesus: Did he really abandon the faith of his family? Jefferson and the Bible: Did he really want to rewrite the Scripture? Jefferson and the church: Did he really advocate separation? Jefferson and slaves: What is the truth about his slaveholding and his statements that all are created equal? Jefferson and education: Did Jefferson really found the first secular, irreligious university? All of these questions deserve the cleansing light of truth. Barton has gone through the historical records, combed the original documents and letters, and examined the recent evidence, and his findings will upset the establishment. Barton shows the true man, the real Thomas Jefferson. Most readers will have the joy and surprise of meeting him for the very first time"--Fantasyland Kurt Andersen 2017-09-05 NEW YORK TIMES BESTSELLER • "The single most important explanation, and the fullest explanation, of how Donald Trump became president of the United States . . . nothing less than the most important book that I have read this year."—Lawrence O'Donnell How did we get here? In this sweeping, eloquent history of America, Kurt Andersen shows that what's happening in our country today—this post-factual, "fake news" moment we're all living through—is not something new, but rather the ultimate expression of our national character. America was founded by wishful dreamers, magical thinkers, and true believers, by hucksters and their suckers. Fantasy is deeply embedded in our DNA. Over the course of five centuries—from the Salem witch trials to Scientology to the Satanic Panic of the 1980s, from P. T. Barnum to Hollywood and the anything-goes, wild-and-crazy sixties, from conspiracy theories to our fetish for guns and obsession with extraterrestrials—our love of the fantastic has made America exceptional in a way that we've never fully acknowledged. From the start, our ultra-individualism was attached to epic dreams and epic fantasies—every citizen was free to believe absolutely anything, or to pretend to be absolutely anybody. With the gleeful erudition and tell-it-like-it-is ferocity of a Christopher Hitchens, Andersen explores whether the great American experiment in liberty has gone off the rails. Fantasyland could not appear at a more perfect moment. If you want to understand Donald Trump and the culture of twenty-first-century America, if you want to know how the lines between reality and illusion have become dangerously blurred, you must read this book. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE SAN FRANCISCO CHRONICLE "This is a blockbuster of a book. Take a deep breath and dive in."—Tom Brokaw "[An] absorbing, must-read polemic . . . a provocative new study of America's cultural history."—Newsday "Compelling and totally unnerving."—The Village Voice "A frighteningly convincing and sometimes uproarious picture of a country in steep, perhaps terminal decline that would have the founding fathers weeping into their beards."—The Guardian "This is an important book—the indispensable book—for understanding America in the age of Trump."—Walter Isaacson, #1 New York Times bestselling author of Leonardo da Vinci

What's the Matter with Kansas? Thomas Frank 2007-04-01 One of "our most insightful social observers"* cracks the great political mystery of our time: how conservatism, once a marker of class privilege, became the creed of millions of ordinary Americans With his acclaimed wit and acuity, Thomas Frank turns his eye on what he calls the "thirty-year backlash"—the populist revolt against a supposedly liberal establishment. The high point of that backlash is the Republican Party's success in building the most unnatural of alliances: between blue-collar Midwesterners and Wall Street business interests, workers and bosses, populists and right-wingers. In asking "what 's the matter with Kansas?"—how a place famous for its radicalism became one of the most conservative states in the union—Frank, a native Kansan and onetime Republican, seeks to answer some broader American riddles: Why do so many of us vote against our economic interests? Where's the outrage at corporate manipulators? And whatever happened to middle-American progressivism? The questions are urgent as well as provocative. Frank answers them by examining pop conservatism—the bestsellers, the radio talk shows, the vicious political combat—and showing how our long culture wars have left us with an electorate far more concerned with their leaders'

"values" and down-home qualities than with their stands on hard questions of policy. A brilliant analysis—and funny to boot—What's the Matter with Kansas? presents a critical assessment of who we are, while telling a remarkable story of how a group of frat boys, lawyers, and CEOs came to convince a nation that they spoke on behalf of the People. *Los Angeles Times

What Would the Founders Say? Larry Schweikart 2011 Makes comparisons between modern government practices and the views of the nation's founders, sharing recommendations for education, gun control, health care, and other important issues..

The American West Larry Schweikart 2003 "This comprehensive sourcebook is divided into five major sections, each covering an important historical period. Within each section, you'll find vivid, well-written narrative entries covering a wide range of fascinating subjects, including the Louisiana Purchase, the Oregon Trail, the California Gold Rush, and the Oklahoma Dust Bowl. In addition, eyewitness accounts taken from letters, diaries, and public documents put you in the center of the action as the broad sweep of history unfolds."

Black Lies, White Lies Tony Brown 2009-05-05 PBS television commentator and syndicated radio talk-show host Tony Brown has been called an "out-of-the-box thinker" and, less delicately, and "equal opportunity ass kicker." Those who attempt to pigeonhole him do so at their own peril. This journalist, media commentator, self-help advocate, entrepreneur, public speaker, film director, and author is a hard man to pin a label on -- and an even more difficult man to fool. In *Black Lies, White Lies*, Tony Brown does what few high-profile African Americans have done before: He dares to challenge the lies of both Black and White leaders, and he dares to tell the truth. He attacks White racism and Black self-victimization with equal vehemence. He condemns integration as a disastrous policy, not for just Blacks but for the entire country. And he confronts the Black Talented Tenth, White liberals, conservatives, Democrats, Republicans, demagogues, and racists on all sides for their self-serving lies, their failures, and their lack of vision. But Tony Brown does not simply slash and burn. He also offers farsighted, workable solutions to America's problems. He provides a blueprint for American renewal based on his belief that although we may not have come to this country on the same ship, we are all now in the same boat.

Debunking Howard Zinn Mary Grabar 2019-08-20 Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

Banking in the American South from the Age of Jackson to Reconstruction Larry Schweikart 1987-01-01

The Rise of Liberal Religion Matthew Hedstrom 2013 Winner of the Frank S. and Elizabeth D. Brewer Best First Book Prize of the American Society of Church History Named a Society for U. S. Intellectual History Notable Title in American Intellectual History The story of liberal religion in the twentieth century, Matthew S. Hedstrom contends, is a story of cultural ascendancy. This may come as a surprise—most scholarship in American religious history, after all, equates the numerical decline of the Protestant mainline with the failure of religious liberalism. Yet a look beyond the pews, into the wider culture, reveals a more complex and fascinating story, one Hedstrom tells in *The Rise of Liberal Religion*. Hedstrom attends especially to the critically important yet little-studied arena of religious book culture—particularly the

religious middlebrow of mid-century-as the site where religious liberalism was most effectively popularized. By looking at book weeks, book clubs, public libraries, new publishing enterprises, key authors and bestsellers, wartime reading programs, and fan mail, among other sources, Hedstrom is able to provide a rich, on-the-ground account of the men, women, and organizations that drove religious liberalism's cultural rise in the 1920s, 1930s, and 1940s. Critically, by the post-WWII period the religious middlebrow had expanded beyond its Protestant roots, using mystical and psychological spirituality as a platform for interreligious exchange. This compelling history of religion and book culture not only shows how reading and book buying were critical twentieth-century religious practices, but also provides a model for thinking about the relationship of religion to consumer culture more broadly. In this way, *The Rise of Liberal Religion* offers both innovative cultural history and new ways of seeing the imprint of liberal religion in our own times.

A Patriot's History® of the Modern World, Vol. I Larry Schweikart 2012-10-11 "America's story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism, despite a few temporary victories by the latter." Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller, *A Patriot's History of the United States*. It proved that, contrary to the liberal biases in countless other history books, America had not really been founded on racism, sexism, greed, and oppression. Schweikart and coauthor Michael Allen restored the truly great achievements of America's patriots, founders, and heroes to their rightful place of honor. Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America's half-century rise to the center of the world stage. This all-new volume corrects many of the biases that cloud the way people view the Treaty of Versailles, the Roaring Twenties, the Crash of 1929, the deployment of the atomic bomb, and other critical events in global history. Beginning with the Spanish-American War—which introduced the United States as a global military power that could no longer be ignored—and continuing through the end of World War II, this book shows how a free, capitalist nation could thrive when put face-to-face with tyrannical and socialist powers. Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded—and struggled on the rare occasions when it strayed from those principles. The authors make a convincing case that America has constantly been a force for good in the world, improving standards of living, introducing innovations, guaranteeing liberty, and offering opportunities to those who had none elsewhere. They also illustrate how the country ascended to superpower status at the same time it was figuring out its own identity. While American ideals were defeating tyrants abroad, a constant struggle against progressivism was being waged at home, leading to the stumbles of the Great Depression, the New Deal, and the attack on Pearl Harbor. Despite this rocky entrance on the world stage, it was during this half century that the world came to embrace all things American, from its innovations and businesses to its political system and popular culture. The United States began to define what the rest of the world could emulate as the new global ideal. *A Patriot's History of the Modern World* provides a new perspective on our extraordinary past—and offers lessons we can apply to preserve American exceptionalism today and tomorrow.

Slander Ann Coulter 2003-09-16 The hottest and most controversial book of the year! Find out who really controls the media in America. "[Ann Coulter] is never in doubt. And that, along with her bright writing, sense of irony and outrage, and her relish at finally hitting back at political opponents (especially in the media) is what makes *Slander* such refreshing and provocative reading." —Los Angeles Times "[Ann Coulter] is a fluent polemicist with a gift for Menckenesque invective . . . and she can harness such language to subtle, syllogistic argument." —Washington Post Book World "The most popular nonfiction book in America." —New York Times "The real value of *Slander* . . . is not in the jokes or devastating exposés of liberal politicians and their allies, but the serious and scholarly study of just how entrenched the media prejudice is against anyone whose politics are even faintly conservative." —New York Sun "Written with a great deal of passion . . . the real source of its strength—and its usefulness—was its painstaking marshalling of evidence . . . More important than [High Crimes and Misdemeanors] because it addresses a much broader issue, and one of lasting significance." —National Review

48 Liberal Lies about American History Larry Schweikart 2008 As he did in his popular "A Patriot's History of the United States," Schweikart corrects liberal bias by rediscovering facts that were once widely known.

He challenges distorted books by name and debunks 48 common myths.

American Entrepreneur Larry Schweikart 2009-09-23 This book vividly illustrates the history of business in the United States from the point of view of the enterprising men and women who made it happen. Ever since the first colonists landed in the New World, Americans have forged ahead in their quest to make good on promises of capitalism and independence. Weaving stirring narrative with economic analysis, this historical deep dive recounts the successes and failures of some of the most iconic business people to grace our history books—from the founding of our country to the present day. In *American Entrepreneur*, you'll learn about how: Eli Whitney changed the shape of the American business landscape; the Civil War impacted the economy, and how it was renewed by the subsequent dominance of Andrew Carnegie and J. P. Morgan; Asa Candler, W. K. Kellogg, Henry Ford, and J.C. Penney led the rise of the consumer marketplace; and Warren Buffett's, Michael Milken's, and Martha Stewart's experience in the "New Economy" in the 1990s—and how that economy continues today. It is an adventure to start a business, and the greatest risk takers in that adventure are entrepreneurs. This is the epic story of America's entrepreneurs and how they created the economy we enjoy today.

American Entrepreneur Larry Schweikart 2010 Weaving together vivid narrative with economic analysis, "American Entrepreneur" vividly illustrates the history of business in the United States from the point of view of the enterprising men and women who made it happen.

A History of Banking in Arizona Larry Schweikart 1982

A Patriot's History of the United States Larry Schweikart 2007 Argues against educational practices that teach students to be ashamed of American history, offering a history of the United States that highlights the country's virtues while placing its darker periods in political and historical context.

No One Left to Lie to Christopher Hitchens 2000 Suggests that President Clinton's largest legacy may be the weakening of the presidency and of the Democratic Party.

48 Liberal Lies About American History Larry Schweikart 2009-08-25 Over the last forty years, history textbooks have become more and more politically correct and distorted about our country's past, argues professor Larry Schweikart. The result, he says, is that students graduate from high school and even college with twisted beliefs about economics, foreign policy, war, religion, race relations, and many other subjects. As he did in his popular *A Patriot's History of the United States*, Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks forty-eight common myths. A sample: • The founders wanted to create a "wall of separation" between church and state • Lincoln issued the Emancipation Proclamation only because he needed black soldiers • Truman ordered the bombing of Hiroshima to intimidate the Soviets with "atomic diplomacy" • Mikhail Gorbachev, not Ronald Reagan, was responsible for ending the Cold War America's past, though not perfect, is far more admirable than you were probably taught.

America, Empire of Liberty David Reynolds 2009-10-06 "The best one-volume history of the United States ever written" (Joseph J. Ellis) It was Thomas Jefferson who envisioned the United States as a great "empire of liberty." This paradoxical phrase may be the key to the American saga: How could the anti-empire of 1776 become the world's greatest superpower? And how did the country that offered unmatched liberty nevertheless found its prosperity on slavery and the dispossession of Native Americans? In this new single-volume history spanning the entire course of US history—from 1776 through the election of Barack Obama—prize-winning historian David Reynolds explains how tensions between empire and liberty have often been resolved by faith—both the evangelical Protestantism that has energized American politics for centuries and the larger faith in American righteousness that has driven the country's expansion. Written with verve and insight, *Empire of Liberty* brilliantly depicts America in all of its many contradictions.

The Politically Incorrect Guide to the Presidents, Part 1 Larry Schweikart 2017-01-09 A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

A Patriot's History of the United States Larry Schweikart 2014-11-25 Revised and updated, this 15th anniversary edition of the #1 New York Times bestseller salutes America's true and proud history. Fifteen years ago, Professors Larry Schweikart and Michael Allen set out to correct the doctrinaire biases that had distorted the way America's past is taught – and they succeeded. *A Patriot's History of the United States* is the definitive objective history of our country, presented honestly and fairly. Schweikart and Allen don't

ignore America's mistakes through the years. Instead, they put them back in the proper perspective, celebrating the strengths of the men and women who cleared the wilderness, abolished slavery, and rid the world of fascism and communism. Now in this revised fifteenth-anniversary edition, a new generation of readers will learn the truth about America's discovery, founding, and advancement, from Columbus's voyage to Trump's promise to "Make America Great Again."

Teaching What Really Happened James W. Loewen 2018-09-07 "Should be in the hands of every history teacher in the country."— Howard Zinn James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

Two Lucky People Milton Friedman 1999-06 This "rich autobiographical and historical panorama" ("Wall Street Journal") provides a memorable and lively account of the lives of the Friedmans: their involvement with world leaders and many of this century's most important public policy issues. 26 photos.

Banking in the West Larry Schweikart 1984

The Patriot's History Reader Larry Schweikart 2011-06-28 An original collection of the most influential documents in American history, from the bestselling author of A Patriot's History of the United States. Since 2005, A Patriot's History of the United States has become a modern classic for its defense of America as a unique country founded on principles of justice, equality, and freedom for all. The Patriot's History Reader continues this tradition by going back to the original sources—the documents, speeches, and legal decisions that shaped our country into what it is today. The authors explore both oft-cited documents—the Declaration of Independence, Emancipation Proclamation, and Roe v. Wade—as well as those that are less famous. Among these are George Washington's letter to Alexander Hamilton, which essentially outline America's military strategy for the next 150 years, and Herbert Hoover's speech on business ethics, which examines the government's role in regulating private enterprise. By helping readers explore history at its source, this book sheds new light on the principles and personalities that have made America great.

Lies My Teacher Told Me James W. Loewen 2018-07-17 "Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, Lies My Teacher Told Me has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the New York Times. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the San Francisco Chronicle calls "an extremely convincing plea for truth in education." In Lies My Teacher Told Me, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening

critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

Debunk This! Matt Palumbo 2019-08-20 Countless studies have proven that over 90 percent of Trump-related news coverage is negative, and the percentage of journalists that identify as Republicans are in the single digits. When liberals are running the show, you can bet that their narrative has gone unchallenged. If you tell a lie long enough people will begin to believe it, and that's certainly the case with so many liberal myths that have become accepted as conventional wisdom. In this book you'll learn, among many other facts: What happened to non-gun mass killings when Australia enacted strict gun control. The truth about "Scandinavian socialism." How Obama twisted the numbers to appear tough on immigration. Why Mexico has stricter immigration laws than the US. How Bill Clinton faked the "Clinton surplus." That the US doesn't have the majority of the world's mass shootings. Why statistics claiming that illegal aliens commit fewer crimes than the general public are bogus. The countless lies the media simply made up about the Trump administration. If you're in need of ammunition to shoot down liberal lies, this is the book for you.

Reagan Larry Schweikart 2019-05-07 New York Times #1 bestselling author Larry Schweikart, armed with previously unseen sources from Ronald Reagan's Presidential Library, uncovers the most important president of the 20th century and details the life and policies of a man who still remains dear to the hearts of Americans. From his time as a lifeguard in Illinois to a sports announcer to a rising actor to a labor union leader, then finally governor of California in the tumultuous 1960s and ultimately President, Reagan's life is told as it has never been before.

America's Victories Larry Schweikart 2007 "In America's Victories, Professor Larry Schweikart restores the truth about our amazing military heritage. Just as he did in his acclaimed previous book, A Patriot's History of the United States, Professor Schweikart cuts through the distortions passed along by academia and the media. Why do Americans win wars, and why is it all but certain we will win the War on Terror? The biggest answer is that, far from being a cruel, bloodthirsty nation, eager to acquire other people's resources, we value the sanctity of life more than any military culture in history. This fundamental trait has led, over the last two centuries, to more humane treatment of prisoners, more daring POW rescues, and more effective operations than any comparable power."--BOOK JACKET.

FAQs About Finding 48 Liberal Lies About American History eBooks

How do I know which eBook platform is the best for me?

Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice.

Are free eBooks of good quality?

Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility.

Can I read eBooks without an eReader?

Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone.

How do I avoid digital eye strain while reading eBooks?

To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks.

What the advantage of interactive eBooks?

Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience.
