How I Survived a Chinese "Reeducation" Camp Gulbahar Haitiwaji 2022-02-22 The first memoir about the "reeducation" camps by a Uyghur woman. "I have written what I lived. The atrocious reality." — Gulbahar Haitiwaji to Paris Match Since 2017, more than one million Uyghurs have been deported from their homes in the Xinjiang region of China to "reeducation camps." The brutal repression of the Uyghurs, a Turkish-speaking Muslim ethnic group, has been denounced as genocide, and reported widely in media around the world. The Xinjiang Papers, revealed by the New York Times in 2019, expose

the brutal repression of the Uyghur ethnicity by means of forced mass detention—the biggest since the time of Mao. Her name is Gulbahar Haitiwaji and she is the first Uyghur woman to write a memoir about the 'reeducation' camps. For three years Haitiwaji endured hundreds of hours of interrogations, torture, hunger, police violence, brainwashing, forced sterilization, freezing cold, and nights under blinding neon light in her prison cell. These camps are to China what the Gulags were to the USSR. The Chinese government denies that they are concentration camps, seeking to legitimize their existence in the name of the “total fight against Islamic terrorism, infiltration and separatism,” and calls them “schools.” But none of this is true. Gulbahar only escaped thanks to the relentless efforts of her daughter. Her courageous memoir is a terrifying portrait of the atrocities she endured in the Chinese gulag and how the treatment of the Uyghurs at the hands of the Chinese government is just the latest

example of their oppression of independent minorities within Chinese borders. The Xinjiang region where the Uyghurs live is where the Chinese government wishes there to be a new “silk route,” connecting Asia to Europe, considered to be the most important political project of president Xi Jinping.

Washington's Spies Alexander Rose
2014-03-25 NEW YORK TIMES BESTSELLER •
Turn: Washington's Spies, now an original series
on AMC Based on remarkable new research,
acclaimed historian Alexander Rose brings to life
the true story of the spy ring that helped
America win the Revolutionary War. For the first
time, Rose takes us beyond the battlefield and
deep into the shadowy underworld of double
agents and triple crosses, covert operations and
code breaking, and unmask the courageous,
flawed men who inhabited this wilderness of

mirrors—including the spymaster at the heart of it all. In the summer of 1778, with the war poised to turn in his favor, General George Washington desperately needed to know where the British would strike next. To that end, he unleashed his secret weapon: an unlikely ring of spies in New York charged with discovering the enemy's battle plans and military strategy. Washington's small band included a young Quaker torn between political principle and family loyalty, a swashbuckling sailor addicted to the perils of espionage, a hard-drinking barkeep, a Yale-educated cavalryman and friend of the doomed Nathan Hale, and a peaceful, sickly farmer who begged Washington to let him retire but who always came through in the end. Personally guiding these imperfect everyday heroes was Washington himself. In an era when officers were gentlemen, and gentlemen didn't spy, he possessed an extraordinary talent for deception—and proved an adept spymaster. The men he mentored were dubbed the Culper Ring.

The British secret service tried to hunt them down, but they escaped by the closest of shaves thanks to their ciphers, dead drops, and invisible ink. Rose's thrilling narrative tells the unknown story of the Revolution—the murderous intelligence war, gunrunning and kidnapping, defectors and executioners—that has never appeared in the history books. But Washington's Spies is also a spirited, touching account of friendship and trust, fear and betrayal, amid the dark and silent world of the spy.

Love Goes to Buildings on Fire Will Hermes 2012-09-04 Chronicles five epochal years of music in the Big Apple against a backdrop of the period's high crime, limited government resources and low rents, tracing the formations of key sounds while evaluating the contributions of such artists as Willie Colón, Bruce Springsteen and Grandmaster Flash. Action Park Andy Mulvihill 2020-06-30 "Citizen Kane does Adventureland." —The Washington Post The outlandish, hilarious, terrifying, and

almost impossible-to-believe story of the legendary, dangerous amusement park where millions were entertained and almost as many bruises were sustained, told through the eyes of the founder's son. Often called "Accident Park," "Class Action Park," or "Traction Park," Action Park was an American icon. Entertaining more than a million people a year in the 1980s, the New Jersey-based amusement playland placed no limits on danger or fun, a monument to the anything-goes spirit of the era that left guests in control of their own adventures--sometimes with tragic results. Though it closed its doors in 1996 after nearly twenty years, it has remained a subject of constant fascination ever since, an establishment completely anathema to our modern culture of rules and safety. Action Park is the first-ever unvarnished look at the history of this DIY Disneyland, as seen through the eyes of Andy Mulvihill, the son of the park's idiosyncratic founder, Gene Mulvihill. From his early days testing precarious rides to working

his way up to chief lifeguard of the infamous Wave Pool to later helping run the whole park, Andy's story is equal parts hilarious and moving, chronicling the life and death of a uniquely American attraction, a wet and wild 1980s adolescence, and a son's struggle to understand his father's quixotic quest to become the Walt Disney of New Jersey. Packing in all of the excitement of a day at Action Park, this is destined to be one of the most unforgettable memoirs of the year.

The Unnatural History of the Sea Callum Roberts 2009-01-05 Humanity can make short work of the oceans' creatures. In 1741, hungry explorers discovered herds of Steller's sea cow in the Bering Strait, and in less than thirty years, the amiable beast had been harpooned into extinction. It's a classic story, but a key fact is often omitted. Bering Island was the last redoubt of a species that had been decimated by hunting and habitat loss years before the explorers set sail. As Callum M. Roberts reveals in The

Unnatural History of the Sea, the oceans' bounty didn't disappear overnight. While today's fishing industry is ruthlessly efficient, intense exploitation began not in the modern era, or even with the dawn of industrialization, but in the eleventh century in medieval Europe. Roberts explores this long and colorful history of commercial fishing, taking readers around the world and through the centuries to witness the transformation of the seas. Drawing on firsthand accounts of early explorers, pirates, merchants, fishers, and travelers, the book recreates the oceans of the past: waters teeming with whales, sea lions, sea otters, turtles, and giant fish. The abundance of marine life described by fifteenth century seafarers is almost unimaginable today, but Roberts both brings it alive and artfully traces its depletion. Collapsing fisheries, he shows, are simply the latest chapter in a long history of unfettered commercialization of the seas. The story does not end with an empty ocean. Instead, Roberts describes how we might

restore the splendor and prosperity of the seas through smarter management of our resources and some simple restraint. From the coasts of Florida to New Zealand, marine reserves have fostered spectacular recovery of plants and animals to levels not seen in a century. They prove that history need not repeat itself: we can leave the oceans richer than we found them.

Rolling Through the Years Kenneth Miller
2020-02-22 If you mention Cedar Point today to someone, their first thought is probably of the roller coasters. Cedar Point is called the Roller Coaster Capital of the World for a reason. The park has set more world records, holds more world records, and has set the standard for amusement parks across the world. But it hasn't always been like that. If you go back in time a hundred years ago, the roller coasters were an afterthought. Cedar Point in the early days was all about getting away to the beach, catching a live show in the Ballroom, socializing on the Hotel Breakers porch, or having a fine picnic with your co-workers. Sure, the resort had roller coasters. And Ferris wheels. And haunted houses. And carousels. But these weren't the focus. *Rolling Through The Years* is a look back across time at the development and changes at the Worlds' Greatest Amusement Park. Author

Ken Miller has spent the last seven years exploring the history of the resort. Magazine articles, museum archives, and over 100,000 newspaper articles spanning 200 years were examined for this detailed history of Cedar Point. Over 75 historical maps of the peninsula and over 1200 images are included in this coffee table book.

How to Ruin Everything George Watsky
2016-06-14 A New York Times Bestseller
"Funny, subversive, and able to excavate such brutally honest sentences that you find yourself nodding your head in wonder and recognition."
—Lin-Manuel Miranda, composer and lyricist of *In the Heights* and *Hamilton: An American Musical*
Are you a sensible, universally competent individual? Are you tired of the crushing monotony of leaping gracefully from one lily pad of success to the next? Are you sick of doing everything right? In this brutally honest and humorous debut, musician and artist George Watsky chronicles the small triumphs over

humiliation that make life bearable and how he has come to accept defeat as necessary to personal progress. The essays in *How to Ruin Everything* range from the absurd (how he became an international ivory smuggler) to the comical (his middle-school rap battle dominance) to the revelatory (his experiences with epilepsy), yet all are delivered with the type of linguistic dexterity and self-awareness that has won Watsky devoted fans across the globe.

Alternately ribald and emotionally resonant, *How to Ruin Everything* announces a versatile writer with a promising career ahead.

The Book of My Life Girolamo Cardano
2002-10-31 A bright star of the Italian Renaissance, Girolamo Cardano was an internationally-sought-after astrologer, physician, and natural philosopher, a creator of modern algebra, and the inventor of the universal joint. Condemned by the Inquisition to house arrest in his old age, Cardano wrote *The Book of My Life*, an unvarnished and often

outrageous account of his character and conduct. Whether discussing his sex life or his diet, the plots of academic rivals or meetings with supernatural beings, or his deep sorrow when his beloved son was executed for murder, Cardano displays the same unbounded curiosity that made him a scientific pioneer. At once picaresque adventure and campus comedy, curriculum vitae, and last will, *The Book of My Life* is an extraordinary Renaissance self-portrait—a book to set beside Montaigne's *Essays* and Benvenuto Cellini's *Autobiography*.

Beasts of No Nation Uzodinma Iweala
2009-10-13 “Remarkable. . . . Iweala never wavers from a gripping, pulsing narrative voice. . . . He captures the horror of ethnic violence in all its brutality and the vulnerability of youth in all its innocence.” —*Entertainment Weekly* (A)
The harrowing, utterly original debut novel by Uzodinma Iweala about the life of a child soldier in a war-torn African country As civil war rages in an unnamed West-African nation, Agu, the

school-aged protagonist of this stunning novel, is recruited into a unit of guerilla fighters. Haunted by his father's own death at the hands of militants, which he fled just before witnessing, Agu is vulnerable to the dangerous yet paternal nature of his new commander. While the war rages on, Agu becomes increasingly divorced from the life he had known before the conflict started—a life of school friends, church services, and time with his family, still intact. As he vividly recalls these sunnier times, his daily reality continues to spin further downward into inexplicable brutality, primal fear, and loss of selfhood. In a powerful, strikingly original voice, Uzodinma Iweala leads the reader through the random travels, betrayals, and violence that mark Agu's new community. Electrifying and engrossing, *Beasts of No Nation* announces the arrival of an extraordinary writer.

The Book of the Lion Alfred E. Pease 1913 On Safari, B.E.A., 16th October 1909. To Sir Alfred E. Pease. Dear Sir Alfred,—I am very much pleased that you are to write a book about lion-hunting. Very, very few people have an experience which better justifies such a book. It is the king of all sports when carried on as you have carried it on, especially when you gallop the lion, and then kill him on foot as he charges or prepares to charge as a lion thus rounded up

will generally do. I am peculiarly pleased to have you write the book, for it was under your guidance that I first tried lion-hunting. Sincerely yours, Theodore Roosevelt. This hunting classic contains the following chapters: Foreword by Theodore Roosevelt I. Lions and Lion Land II. About Courage III. Of the Courage of Lions IV. Of Dangerous Game V. Of Sport VI. The Lion VII. The Distribution of Lions VIII. Lion Cubs and Tame Lions IX. The Haunts of Lions X. The Lion's Voice and the Lion's Eye XI. Some Ways of Lions XII. In the Lion's Jaw XIII. The Food and Drink of Lions XIV. Lion-Hunting XV. Hunting with Dogs and Hunting with Horses XVI. Night-Shooting XVII. Hints for the Beginner

Coasters 101 Nick Weisenberger 2013-11-04

Have you always wanted to learn more about how roller coasters work? I'm not talking about the basic "roller coasters use gravity!" descriptions you're used to. I'm talking about learning in-depth about the nitty gritty engineering details, like: How do roller coaster engineers know what size motor is needed to pull the train to the top of the lift hill and how much will it cost to operate it? What material are the wheels made out of and how does it affect the performance of the ride? What is the difference between LIM and LSM propulsion? How does the control system on a racing or dueling coaster time up the near collision moments perfectly every single time? All of these questions and more are answered in the latest edition of *Coasters 101: An Engineer's Guide to Roller Coaster Design*. "I thought it was great. It was a good first look at roller coaster design. It also gave great information and details about roller coasters in general." - Adrina from Goodreads "Thanks for writing a very good book.

I could not put it down. Lot's of great information. I am a technology and engineering teacher and the information I found here is very helpful in trying to get students more excited about engineering." -Amazon reviewer

Carrying Albert Home: The Somewhat True Story of a Man, his Wife and her Alligator

Passage to Juneau Jonathan Raban 2011-06-22 The bestselling, award-winning author of *Bad Land* takes us along the Inside Passage, 1,000 miles of often treacherous water, which he navigates solo in a 35-foot sailboat, offering captivating discourses on art, philosophy, and navigation and an unsparing narrative of personal loss. "A work of great beauty and inexhaustible fervor." —*The Washington Post* Book World With the same rigorous observation (natural and social), invigorating stylishness, and encyclopedic learning that he brought to his National Book Award-winning *Bad Land*, Jonathan Raban conducts readers along the Inside Passage from Seattle to Juneau. But *Passage to Juneau* also traverses a gulf of centuries and cultures: the immeasurable divide between the Northwest's Indians and its first

European explorers—between its embattled fishermen and loggers and its pampered new class.

Making the Ordinary Extraordinary Tamra Lucid 2021-10-26 • Details how the author and her boyfriend developed a close friendship with Manly Hall and how Hall at first mistook her boyfriend as his heir apparent • Explains how Hall adopted the author as his “girl Friday” and personal weirdo screener, giving her access to the inner circles of occult Los Angeles • Richly depicts the characters who worked and gathered at Hall’s Philosophical Research Society, including Hall’s wife, the famed “Mad Marie” In the early 1980s, underground musicians Tamra Lucid and her boyfriend Ronnie Pontiac discovered the book *The Secret Teachings of All Ages* at the Bodhi Tree bookstore in Los Angeles. Poring over the tome, they were awakened to the esoteric and occult teachings of the world. Tamra and Ronnie were delighted to discover that the book’s author, Manly Palmer Hall

(1901-1990), master teacher of Hermetic mysteries and collector of all things mystical, lived in LA and gave lectures every Sunday at his mystery school, the Philosophical Research Society (PRS). After their first tantalizing Sunday lecture, Tamra and Ronnie soon started volunteering at the PRS, beginning a seven-year friendship with Manly P. Hall, who eventually officiated their wedding in his backyard. In this touching, hilarious, and ultimately tragic autobiographical account, Tamra shares an intimate portrait of Hall and the occult world of New Age Los Angeles, including encounters with astrologers, scholars, artists, spiritual seekers, and celebrities such as Jean Houston and Marianne Williamson. Tamra vividly describes how she used her time at the PRS to learn everything she could not only about metaphysics but also about the people who practice it. But when Tamra begs Hall to banish a certain man from the PRS--the same man who inherited Hall’s estate and whom his wife Marie later

alleged was Hall's murderer--Tamra and Ronnie are the ones banished. Tamra's noir chronicle of an improbable friendship between a twenty-something punk and an eighty-year-old metaphysical scholar reveals Hall not only as an inspiring esoteric thinker but also as a genuinely kind human being who simply wanted to share his quest for inner meaning and rare wisdom with the world.

Creating the National Park Service Horace M. Albright 1999 Two men played a crucial role in the creation and early history of the National Park Service: Stephen T. Mather, a public relations genius of sweeping vision, and Horace M. Albright, an able lawyer and administrator who helped transform that vision into reality. In *Creating the National Park Service*, Albright and his daughter, Marian Albright Schenck, reveal the previously untold story of the critical "missing years" in the history of the service. During this period, 1917 and 1918, Mather's problems with manic depression were kept

hidden from public view, and Albright, his able and devoted assistant, served as acting director and assumed Mather's responsibilities. Albright played a decisive part in the passage of the National Park Service Organic Act of 1916; the formulation of principles and policies for management of the parks; the defense of the parks against exploitation by ranchers, lumber companies, and mining interests during World War I; and other issues crucial to the future of the fledgling park system. This authoritative behind-the-scenes history sheds light on the early days of the most popular of all federal agencies while painting a vivid picture of American life in the early twentieth century.

Touching the World Paul John Eakin 1992-04-15 Paul John Eakin's earlier work *Fictions in Autobiography* is a key text in autobiography studies. In it he proposed that the self that finds expression in autobiography is in fundamental ways a kind of fictive construct, a fiction articulated in a fiction. In this new book

Eakin turns his attention to what he sees as the defining assumption of autobiography: that the story of the self does refer to a world of biographical and historical fact. Here he shows that people write autobiography not in some private realm of the autonomous self but rather in strenuous engagement with the pressures that life in culture entails. In so demonstrating, he offers fresh readings of autobiographies by Roland Barthes, Nathalie Sarraute, William Maxwell, Henry James, Ronald Fraser, Richard Rodriguez, Henry Adams, Patricia Hampl, John Updike, James McConkey, and Lillian Hellman. In the introduction Eakin makes a case for reopening the file on reference in autobiography, and in the first chapter he establishes the complexity of the referential aesthetic of the genre, the intricate interplay of fact and fiction in such texts. In subsequent chapters he explores some of the major contexts of reference in autobiography: the biographical, the social and cultural, the historical, and finally,

underlying all the rest, the somatic and temporal dimensions of the lived experience of identity. In his discussion of contemporary theories of the self, Eakin draws especially on cultural anthropology and developmental psychology. Mississippi Projectile Point Guide Samuel O. McGahey 2000

Sharks in Lake Erie H John Hildebrandt
2021-06-18 "Mr. Visidi, you realize there is no credible account of a shark attack in the roughly 4,000 year-life of Lake Erie. There are no sharks in Lake Erie," pronounces Officer James Mylett of the Ohio Department of Natural Resources (ODNR). Frankie Visidi has a slightly different point of view-that afternoon, his beloved black lab, Priscilla, was killed by a huge bull shark while they were swimming off his boat, anchored on Kelleys Island Shoal. Director of the Museum of Lake Erie in Sandusky, Ohio, and Master Gardener, Susan Massimino has been called in by her police chief cousin to help identify the flowers present at the murder scene of William

Krupp, a prominent local farmer. Could the sudden presence of bull sharks (equally at home in fresh water or salt water) and the murder of Krupp be related? Author John Hildebrandt knows his beloved Lake Erie. His descriptions and reflections of life in what's known as the "western basin," ring true. In a 40 year-long career with Cedar Point, retiring as general manager, he saw the lake every day. He knows the history, the plant and animal life, the weather, and especially the people who choose to live here. At the center of the story is Paul Gutten, aka Z, a German-Swiss businessman who also directs an Eco-terrorist organization secretly funded by stolen Nazi gold, now hidden in a cave in Bavaria. Z is fascinated by sharks and believes their sudden presence in western Lake Erie will focus attention on Lake Erie and its many environmental problems. He secretly arranges for six adult bull sharks to be introduced to Lake Erie. The sharks, of course, will be sharks and they leave a trail of blood and

death in and around the Lake Erie Islands. The standard refrain: "There are no sharks in Lake Erie" is stood on its head when several bull sharks attack a group of kayakers in plain view of tourists aboard the Jet Express ferry. The news goes world-wide. Z and Susan move quickly toward romance until Susan discovers evidence that Z may well be the killer of William Krupp? This story is constant action, moving from lake to farm and from Bavaria to Ohio. The characters are vivid and compelling. Sharks in Lake Erie is part thriller, part police procedural, part introduction to life on Lake Erie. In the end, the sharks call the shots.

Personal Memoirs of U.S. Grant ... Ulysses Simpson Grant 1885 Faced with failing health and financial ruin, the Civil War's greatest general and former president wrote his personal memoirs to secure his family's future - and won himself a unique place in American letters. Devoted almost entirely to his life as a soldier, Grant's Memoirs traces the trajectory of his extraordinary career - from West Point cadet to general-in-chief of all Union armies. The Sun & The Moon & The Rolling Stones Rich Cohen 2016-05-10 A gritty, one-of-a-kind backstage account of the world's greatest touring band, from the opinionated music journalist who was along for the ride as a young reporter for *Rolling Stone* in the 1990s ONE OF THE TOP FIVE ROCK BIOGRAPHIES OF THE YEAR—SAN FRANCISCO CHRONICLE ONE OF

THE BEST BOOKS OF THE YEAR—KIRKUS REVIEWS A book inspired by a lifelong appreciation of the music that borders on obsession, Rich Cohen's fresh and galvanizing narrative history of the Rolling Stones begins with the fateful meeting of Mick Jagger and Keith Richards on a train platform in 1961—and goes on to span decades, with a focus on the golden run—from the albums *Beggars Banquet* (1968) to *Exile on Main Street* (1972)—when the Stones were at the height of their powers. Cohen is equally as good on the low points as the highs, and he puts his finger on the moments that not only defined the Stones as gifted musicians schooled in the blues, but as the avatars of so much in our modern culture. In the end, though, after the drugs and the girlfriends and the bitter disputes, there is the music—which will define, once and forever, why the Stones will always matter. Praise for *The Sun & The Moon & The Rolling Stones* “Fabulous . . . The research is meticulous. . . . Cohen's own interviews even

yield some new Stones lore.”—The Wall Street Journal “[Cohen] can catch the way a record can seem to remake the world [and] how songs make a world you can't escape.”—Pitchfork “No one can tell this story, wringing new life even from the leathery faces of mummies like the Rolling Stones, like Rich Cohen. . . . The book beautifully details the very meaning of rock 'n' roll.”—New York Observer “Masterful . . . Hundreds of books have been written about this particular band and [Cohen's] will rank among the very best of the bunch.”—Chicago Tribune “Cohen, who has shown time and time again he can take any history lesson and make it personal and interesting . . . somehow tells the [Stones'] story in a whole different way. This might be the best music book of 2016.”—Men's Journal “[Cohen's] account of the band's rise from 'footloose' kids to 'old, clean, prosperous' stars is, like the Stones, irresistible.”—People “You will, as with the best music bios, want to follow along on vinyl.”—The Washington Post “A fresh take on

dusty topics like Altamont and the Stones' relationship with the Beatles . . . Cohen takes pilgrimages to places like Nellcôte, the French mansion where the Stones made Exile on Main Street, and recounts fascinating moments from his time on tour."—Rolling Stone "On the short list of worthwhile books about the Stones . . . The book is stuffed with insights."—San Francisco Chronicle

Cedar Point David W. Francis 2004 In 1870, Louis Zistel began ferrying passengers from Sandusky to the Cedar Point Peninsula's beer garden and sandy beaches. In 1888, the Grand Pavilion was built, housing a massive theatre, bowling alley, photographic studio, and kitchen, and shortly thereafter, the resort's first roller coaster was installed. George Boeckling transformed the resort into a self-sufficient city and amusement park, but the park suffered badly in the 1930s economic depression. However, after Cedar Point changed hands several times in the 1950s, it became one of

America's leading amusement parks. Today, the park is best known as the world's largest amusement park and the "Roller Coaster Capital of the World."

The Lost Book of Enki Zecharia Sitchin
2004-08-16 The companion volume to The Earth Chronicles series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover Zecharia Sitchin's bestselling series The Earth Chronicles provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's

impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.

The End of an Era John Sergeant Wise 1899

Kings Island Evan Ponstingle 2021-04 In 1972,

one of America's most beloved theme parks swung open its gates for the first time. Kings Island was the latest in the post-Disneyland boom, and it was big, beautiful, and instantly successful. Who could forget their first sight of the magnificent Eiffel Tower after passing through the turnstiles? Or the colorful flags flying proudly over the Royal Fountain? Now nearly fifty years later, the park is as amazing and grand as ever. Read the story behind this magical playground and how it has changed over time. Filled with personal recollections of park officials who were there, *Kings Island: A Ride Through Time* offers a first-hand account that is as fascinating as the attractions we've loved all our lives.
